

The Applebee Preschool

Summer Camp 2025

Summer Camp 2025

Welcome to Summer Camp 2025.

Our summer camp program will begin on Monday, June 2nd. We are so excited about our summer camp themes this year. Each of the 8 weeks, we will explore a fun new theme. Within each theme we will incorporate projects & activities that include art, science, math, literacy, gross and fine motor control skills, as well as endless opportunities for social and emotional growth.

Our process-oriented art projects along with our loose parts philosophy provide preschoolers with so many choices. Our mixed age groups allow preschoolers the opportunity to be leaders, followers, turn takers, friendship makers and more. As your child walks in the door, they can check themselves in using our photo/name magnets so that they feel a sense of belonging. They will then check themselves out at the end of the day as well.

It is our goal, at Applebee, to help each child feel safe and secure in a loving environment that promotes individual learning and a comfort level hard to be matched anywhere else. We believe that each child learns and grows at their own pace.

We are looking forward to another fun summer with your kiddo's!

Amy Krause Rosenthal “Children’s Author”

Amy Krause Rosenthal is a well-known children’s author. We will kick off our summer camp getting to know more about her! We will read her books such as, “Little Pea,” and “Duck! Rabbit!,” and act these stories out! We will explore her other books like, “Spoon,” “!,” and “Chopsticks” and talk about sequencing and repetition while exploring the characters in each story. We will even create our very own children’s book!

Lil Chef’s & Science

From making ice cream in a bag to making rock candy crystals...we will explore how science factors into the food we eat. We will talk about food groups, make our own snacks, create our own potions and explore what foods need to be cooked, and what we can eat raw. We will focus on healthy eating habits and talk about how healthy foods are good for our bodies.

California Adventures

California has a vast amount of amazing destinations to be explored. We will start at the top and follow the coast down while popping into the desert in the middle. We will explore big cities and tiny towns too! We will talk about how the ocean meets the forest, visit the redwoods, cross bridges and even pan for gold!

Magical Fairy Forests

Watch as we turn Applebee into a magical enchanted forest. From castles to fairy gardens we will explore forest animals by bringing them to life and adding a little magical fairy dust! We will read folktales and fairy tales and create our own faraway lands. We will make firefly jars, fairy gardens, turn ourselves into elves and more!

Busy Bee's & Butterflies: It's an Insects Life

We here at AppleBEE, think bees are the bees' knees and butterflies are simply magical! This week we will learn about bees & butterflies and how important they are for our ecosystem. We will taste honeycomb, honey, and even meet a real beekeeper. From honeybees to bumble bees and all the bees in between...this week will be super sweet!

Color Me Messy

Messy art is simply one of the best ways for children to explore the world around them! We will use all of our five senses as we explore various mediums to create our very own masterpieces. We will even develop fine motor skills and hand-eye coordination in the process. We will mix, match and create while learning about famous artists.

Camp Out

Campfires, stories, s'mores and more. We will pack up and hit the road to explore the great outdoors! We will pitch a tent, create a campfire, make s'mores, learn how to fish and take a nature hike too. Don't forget your swimsuits and sunscreen as we will surely enjoy some amazing summer weather in our own little lake.

Under The Sea

Into the deep Blue Sea, we will go! We will explore plant life, animals/mammals and all things ocean. We will discover sea creatures, explore their habitats, learn about the food chain and more. Sandcastles will be built and as we flop around in flippers and fish off our very own pier. Bring your suit, we will definitely get wet! We will end our magical summer camp with a Luau lunch for all!
