

The Applebee Preschool

Opening Summer 2020

A new boutique style, play-based preschool program located in Folsom.

I am offering a small, play-based Preschool/Pre-k/K Program for kids 2 ½-6 years of age in the Harvest Community of Folsom. I have over 30 years of preschool teaching experience that I can't wait to share with your family. I recently moved to Folsom from the Bay area, where I owned my own preschool for 23 years. I am so excited to re-open Applebee this summer right here in Folsom (License # 343623546). My summer program (with an option to continue on in the fall) will be small (10-12 kids per day). The school space will be cleaned continuously and all necessary precautions will be taken to keep your kids healthy while they enjoy a fun summer of playing together and making new friends.

Please visit our website for more information about my program (philosophy, fee's etc.): applebeepreschool.com

Opening June 15th

Now Enrolling for Summer and Fall!!!!

1556 Harvest Loop Folsom, Ca 95630

Enroll your child today!

Commotion in the Ocean (6/15-6/26)

Into the deep Blue Sea, we will go! We will explore plant life, animals/mammals and all things ocean. We will discover sea creatures and their habitats, the food chain and more. Sandcastles will be built and as we flop around in flippers and fish off our very own pier. Bring your suit, we will definitely get wet!

Sun-sational Science (6/29-7/10)

Have you ever seen a raisin “dance” or wonder what makes a seed grow? For these two weeks we will explore the innovative world of science. We will learn about the life cycle of a frog, how clouds evaporate and create water, and learn how to blow up a balloon using a bottle, baking soda and vinegar. We will even make it rain in a jar! We will make predictions, concoctions and potions including green slime, silly putty and a rainbow in a bag.

Exploring Art Thru Our Senses (7/13-7/24)

Our five senses will come alive as we explore ways we can use them to learn about art. We believe art is anything we create using our own ideas. It's one way we can share our ideas with others. We will use paint we can see, but also feel and smell. We will create block sculptures, mosaics, acrylics, watercolors and more! We will listen to different types of music to see how it helps us express our creativity. Art is expression and experience, and these are two things are vital to the preschool years!

Come on...Let's Build (7/27-8/7)

All things building and construction will come together to round out the end of our summer together! We will sort Lego's by colors & shapes, make Lego prints and even Lego Pizza, yum! The block area will be transformed with all kinds of building materials. Inside and out, watch as we build all sorts of amazing creations!

Our Summer program ends 8/7 and fall begins 8/12.
