

THE BEST CONCRETE IS MIXED BY

DE BUF

DEBUEF

WHO WE ARE

De Buf is a family owned company in Belgium.

We design, develop and realize concrete mixers for more than **30 years**.

All production is manufactured in our workshop in Oostkamp – Belgium.

We can rely on a high level of experience and knowhow in the world of transporting concrete.

De Buf has developed an excellent reputation throughout Europe for their quality design and production of concrete mixers.

We can perform to the highest payloads with drum sizes from 6 m³ up to 17 m³.

2 AXLE TRAILER

9 M³ - 10 M³ - 12 M³

Trailer available with:

- different wheelbase and wheelspace according to the national homologation.
- lifting axle.
- hydraulically steered 2nd axle.

Trailer equipped with WABCO air suspension.

Drum with several sizes possible.

Drum available in light, normal, strong version.

Equipment available with various options.

With COC approval.

3 AXLE TRAILER

12 M³ - 15 M³

Trailer available with:

- different wheelbase and wheelspace according to the national homologation.
- lifting axle.
- 2 hydraulically steered axles.
- Self-steering axle

Trailer equipped with WABCO air suspension.

Drum with several sizes possible.

Drum available in light, normal, strong version.

Equipment available with various options.

With COC approval.
