NOTE: PROGRAM DONATIONS ARE NOT TAX DEDUCTIBLE***

@ **Collective Visions Community Program**, we create an environment where people with disabilities can help others, build healthy relationships, work on life skills, and pursue community interests. The program provides community-based services and helps individuals achieve **community integration, personal development, and self-advocacy**. Individuals can explore interests through community projects, classes, educational opportunities, activities, and volunteer participation. The program assists individuals with developing natural community supports and **building strong healthy relationships** while delivering innovative life enriching opportunities and providing quality support for their families.

The program is unique in that **100% of our program takes place in the community**. We pride ourselves on building and maintaining relationships with businesses, universities, and organizations in the Greater Cincinnati area. Our numerous committed community partners have a wide variety of backgrounds and experience involved within the program. This list includes partnerships such as University of Cincinnati, Groundwork Ohio River Valley, Cincinnati Museum Center, Habitat for Humanity, and Cincinnati Parks... just to name a few. **We offer services for individuals on IO, Level 1, and SELF waivers.**
