My Mouse are lovable mouse characters for toddlers, kids, & pre-teens to inspire soft easy feelings of laugh & innocence. They make great images for logos, decals for children’s apparel and plush toys. They illustrate extreme happy or intimate emotions to delight their fans. They are different because not only their lovable appeal but with their large ears & long curly tails. They are ideal for merchandizing following the marketing strategy of the world famous “Hello Kitty”.

The My Mouse have monkey like climbing characters, love trees and feel they are protectors of the environment. With their extended ears, their hearing better than all earthly creatures. They can curl up their tails and use them as springs to quickly hurdle over large objects and gain speed. They also use their tails to grab things out of reach for their short arms or grab a tree branch. Their mission is to encourage the world population to plant as many trees as possible around the world. Not only for oxygen & climate change but for them to climb or seek shade.
