

YOKIE & POKIE

Yokie the Yellow Frog and Pokie the Pink Frog (species classification, Dinglefrogs) are the new adorable characters from the VillageStar collection. They make great mascots for product or service representations. Cartoon characters can help sell a product 10 times faster than text content. Cute cartoon images draw attention on the store shelf and help buyers quickly understand by taking bypassing complex written text. In today's fast market kids and adults too have shorter tension spans and products that convey appeal facilitate sales. Think " Hello Kitty"!!!

Yokie & Pokie are unusual odd couple frogs with abilities to leap extremely high due to their extra-large webbed feet. They wear air filled arm floaters to make it easier for them to float & swim in water. Their arms are rubbery and stretchable to reach branches making them the first tree climbing frogs. They are goofy, always finding themselves in precarious situations with predators like gators, snakes, evil people.....etc. Their mission is to become influencers to clean up lakes, rivers, waterways and oceans from pollutants and excess CO2. They expose and fight the evils of pollution and climate change bringing awareness to all generations.

The odd couple. Yokie is the quiet one, though he is yellow, he is the bravest of the two. He is the protector, the fighter, the leader. He likes classical music & rap. Pokie is more talkative but unsure of his abilities. He only likes country music. He's also intelligent, very curious, hence the name pokie, which gets him into trouble. As a team, they move around terrains fast.
