

A Message to Baby-Boomer Alumni of Union City Schools

Union City Students Circa 1950-1985

Union City Students Today

The students on the left are part of America's most successful generation
We received a solid education, prepared well, worked hard, invested well.
But in a very real sense, we were also **LUCKY**...

We were born into the golden era of small-town education and opportunity.

The kids on the right live in a house like ours.
They might even live in the *same* house we lived in.
They have hopes and dreams like we had, .

BUT THEY ARE NOT LUCKY.

21st Century forces beyond their control threaten the pillars of our success...
The ability of our school to compete with larger, better funded schools
Their family's ability to afford a four-year college degree.
The ability of non-college bound to find and afford alternative education opportunities
Their ability to find stable career opportunity, safe from technological disruption.

There are solutions, but they required dollars.
An Education Foundation is the 21st Century vehicle to attract and allocate supplemental dollars.

TO the extent that our Union City experience aided our success...

**It seems right and proper that we reach back and assist
kids less fortunate, but no less worthy**

Let's Talk!
