‘quality security and professional services’

About Secure 1 Services

The name says it all “to feel secure and protected with Secure 1 Services”.

The company has been long time in the making and has been operating since 2009. Western Australian owned and operated Secure 1 Services was established to provide businesses with security services second to none. The company has established strong relationships with all types of businesses from Venues, Bars, Nightclubs, councils, Event management companies, Mining companies, Hotels and Shopping Centres.

All of Secure 1 staff have long term experience in the security industry and are the best at what they do. Secure 1 Services puts a lot of attention to detail to their quality of work rather than quantity to deliver the best possible service to our clients.

We have a large database of security personal which allows us to allocate the right person for the right job. We treat every job individually and access the best possible approach and personal that would fit that particular job.

We pride ourselves on professionalism, integrity and honesty and we try to form good relationships with our clients for a long-term relationship.

With Secure 1 Services you will feel safe, secure and most importantly you will have a piece of mind that your business has been taken care of in the best possible way. With the skills and experience learned throughout the years it makes Secure 1 Services one of the best and most reliable security provider in the industry.

Core Competencies

Secure 1 Services helps customers meet their security needs by possessing a range of core competencies to effectively protect people and property which are:

- Security personal training-ensure that security personal is well trained in various aspects of security
- Threat Assessment-security guards are trained to identify risks and take appropriate preventive measures
- Communication Skills-security guards are trained in clear and assertive communication to manage crowds, provide directions and de-escalate conflicts
- Crowd Management Techniques-security guards are trained to understand how to maintain order and prevent stampedes or other dangerous situations
- First Aid and Medical Training
- Conflict Resolution-Security guards are trained how to de-escalate tense situations without resorting to excessive force
