Stripping Application

1. Set caution signs
2. Remove foreign debris from floor and dust mop
3. Prepare stripper solution as directed by manufacturer
4. Apply stripper solution around baseboard and hard to reach areas
5. Use a utility pad and holder to strip. Do not let stripper dry
6. Apply stripper solution to a manageable area following product dwell time instructions
7. Strip with floor machine and proper stripping pad
8. Remove solution using a wet/dry vacuum or an auto-scrubber
9. Rinse floor with clean water, changing water frequently and allow to dry
10. Dust mop and inspect floor before applying finish

Ultra Blue Stripper,
High Productivity Stripping,
Black Super Strip

Scrubbing / Cleaning Application

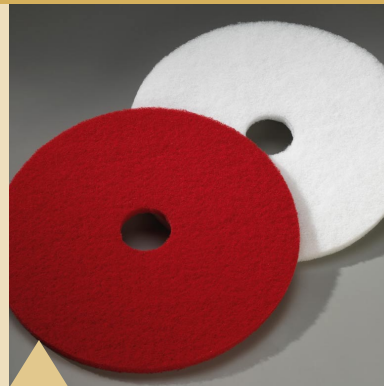

1. Set caution signs
2. Remove foreign debris from floor and dust mop
3. Prepare scrubbing solution as directed by manufacturer
4. Apply scrubbing solution using a mop and bucket or an auto-scrubber
5. Scrub floor with proper scrubbing/cleaning pad
6. Remove solution using a wet/dry vacuum or an auto-scrubber
7. Rinse floor with clean water or neutral cleaner and allow to dry
8. Dust mop floor before applying finish or buffing

Green Super Scrub,
Blue Super Clean

Spray Buffing / Polishing Application

1. Set caution signs
2. Remove foreign debris from floor and dust mop
3. When spray buffing, apply solution only to an area easily maintained by a single person
4. Immediately buff floor with appropriate buffing pad
5. Use side to side overlapping motion
6. Dust mop floor after buffing for final inspection
7. For high gloss shine repeat steps 4 through 6 with a White Super Gloss pad

Red Buffer,
White Super Gloss

High Speed Burnishing Application

1. Set caution signs
2. Remove foreign debris from floor and dust mop
3. Burnish floor with appropriate burnishing pad per floor maintenance schedule
4. Dust mop floor after burnishing for final inspection
