

Hat Box Assembly Instructions

Lid

1. Starting with the three sides with the side flaps, fold each one into the center allowing the bottom of the flap to lie against the lid.
2. Take the other three sides (without the side flaps) and fold them just like the first three, but over the side flaps hiding them between the pieces of cardboard. All six sides should now be folded with the bottom flaps lying nicely against the lid.
3. Next, take the lid insert and snap it into place inside the lid, hiding the bottom flaps.

Step 3

Step 4

Base

The base is put together just like the lid.

1. Starting with the three sides with the side flaps, fold each one into the center allowing the bottom flap to lie against the lid.
2. Take the other three sides (without the side flaps) and fold them just like the first three, but over the side flaps hiding them between the pieces of cardboard. All six sides should now be folded with the bottom flaps lying nicely against the lid.
3. Next, take the lid insert and snap it into place inside the lid, hiding the bottom flaps
