

Welcome to Bellamont Campground.

The following rules are to ensure that all our guests have a safe, quiet, and pleasant stay with us.

Check-out time is by 11:00AM. If you plan on extending your stay, let us know as soon as possible and we will make attempts so that you can keep your site, (cannot guarantee it). Failure to check out on time will result in late charges as well as the possibility of you being towed at your own expense .

Connecting to sewage. A sewer hose seal (rubber donut or threaded connector) for your sewer hose is REQUIRED. This is to ensure it is airtight. Do not jam your sewer hose all the way down into the inlet as it can prevent flow from other sites and could stop up the line. Place the sewer line so as not to inhibit mowing the grass.

Occupancy. Rates are based on two adults and two children, with two vehicles that fit within your pad site (off grass and off roadway). Any guests staying more than one (1) week will have to be added to your application and may be subject to additional fees. Grandchildren visiting for up to two (2) weeks in the summertime are an exception.

RV Appearance. Management reserves the right to refuse service to any RV based on its appearance or condition. ALL monthly guests MUST email pictures of front, back, right, & left of their RV prior to the reservation to avoid a possible refusal upon arrival.

Pad Perimeter: Your site is to be kept clean and orderly. Only plants, grills, and lawn furniture should be visible on the outside, as determined by management. Mats, area rugs, (anything that can possibly kill the lawn) are NOT ALLOWED, including breathable mats. Be sure to close awnings when leaving your rig unattended. Please respect the privacy of fellow guests - Do NOT walk through occupied sites. No trimming or wood gathering from the trees or you could be charged for damages.

Any non-working vehicles MUST BE removed from the premises. Failure to do so will result in towing of said vehicle at guest's expense. Changing a flat or jumping a dead battery is allowed. Management approval is required for any other repair/maintenance procedure.

Water Usage. ALL water hose connections shall have a backflow preventer at the hose bib. Please note that the water pressure is very high and your RV may need a pressure regulator if the plumbing cannot withstand high pressures. All water leaks inside OR outside your RV MUST be repaired immediately.
