READY, SET,

SCHOOL

Our Ready, Set, School group helps children build the essential pre-literacy and language foundations they need to thrive in their first year of school.

Friday 9th, 16th, 23rd January 2026

10am- 11:30am

\$455 for all 3 sessions

New Clients Welcome

Through fun, play-based activities, your child will develop:

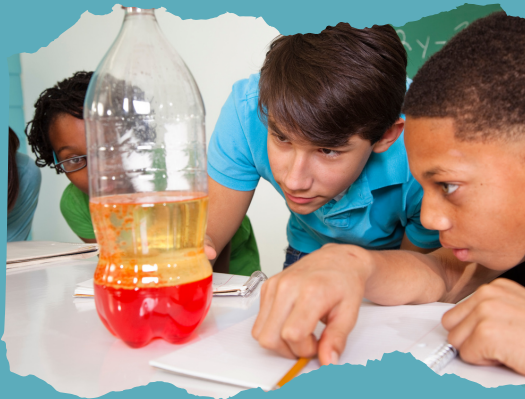

- Phonological awareness – recognising sounds, rhyming, and syllables
- Pre-literacy skills – letter awareness, story understanding, and print knowledge
- Language and vocabulary – building word knowledge, sequencing skills, following directions and understanding longer stories
- Social communication – turn taking, sharing, and confidence in group learning

MINI ★ SCIENTISTS

In Mini Scientists, children explore hands-on science activities designed to spark curiosity and grow essential language and communication skills. Each week, children will dive into exciting experiments — making slime, balloon-powered rockets, lava lamps, and more!

5 - 9
Year Olds

Thursday 8th, 15th, 22nd January

1pm- 2:30pm

\$455 for all 3 sessions

New Clients Welcome

Through these fun investigations, your child will develop:

- Thinking and reasoning skills – predicting, problem-solving, and drawing conclusions
- Expressive language – explaining ideas, describing observations, and using new vocabulary
- Receptive language – following multi-step instructions
- Teamwork and social communication – taking turns, sharing equipment, and collaborating

CREATE & COMMUNICATE

In Create and Communicate, children work together on fun, hands-on art and craft projects designed to boost language, social, and communication skills while having a great time. Each week features exciting themed creations — like designing your own Squishmallow, and nature-inspired crafts such as dream catchers and leaf rubbings!

5 - 9
Year Olds

Monday 12th and 19th January

1pm- 2:30pm

\$305 for all 3 sessions

New Clients Welcome

Through creative play and collaboration, your child will develop:

- Expressive language – describing, explaining, and sharing ideas
- Social communication – turn-taking, listening, and problem-solving together
- Planning and sequencing – thinking through steps and staying organised
- Fine motor skills – strengthening coordination while crafting
- Vocabulary and comprehension – learning new words through real experiences

PRETEND PLAY

In Pretend Play, children step into a world of make-believe — becoming chefs, shopkeepers, superheroes, vets, and more! Through fun, imaginative play, children build the language and communication skills that form the foundation for learning and social success.

Wednesday 7th, 14th, 21st January

10am -11:00am

\$305 for all 3 sessions

New Clients Welcome

Play and language grow together — as children pretend, talk, and create stories, they develop:

- Expressive language – using words, sentences, and imagination to share ideas
- Comprehension – understanding words, routines, and pretend scenarios
- Social communication – turn-taking, sharing, and playing cooperatively with others
- Thinking and problem-solving – planning roles, solving challenges, and following sequences

LEGO CLUB

Lego® Club is based on the principles of LEGO®-Based Therapy, where children work together in small groups to build, talk, and problem-solve as a team. Each child takes on a specific role — such as Builder, Engineer, or Supplier— encouraging clear communication, cooperation, and shared success.

6-10
Year Olds

Tuesday 13th, 20th, 27th January

3pm - 4:30pm

\$455 for all 3 sessions

New Clients Welcome

Through structured, play-based sessions, children develop:

- Expressive and receptive language – giving and following instructions, describing, clarifying, and questioning
- Social communication – turn-taking, negotiating, and working collaboratively with peers
- Problem-solving and flexibility – resolving challenges and adapting to group needs
- Conversation and perspective-taking – listening to others' ideas and sharing their own

WORD DETECTIVES

Word Detectives is a literacy group for upper primary students. In Word Detectives, students explore how words are built and what they mean — discovering the hidden building blocks of language through morphology (the study of prefixes, suffixes, and root words).

Grade
4, 5, 6

Monday & Tuesday 12, 13, 19, 20 January

10am- 11am

\$405 for all 4 sessions

New Clients Welcome

Understanding morphology helps children:

- Improve spelling – by recognising patterns and word parts
- Boost vocabulary – by connecting word meanings and origins
- Enhance reading comprehension – by understanding complex and unfamiliar words
- Strengthen writing – by choosing precise and meaningful words
- Build confidence with language – turning tricky words into powerful tools
