Below is a summary of the June Planning Commission meeting:

1. Call to Order – called by Chairman Bob Hinkle at 6:00 PM.

Reports and Updates

2. Workshop Discussion

A. Trash Ordinance.

- Chairman Hinkle began the discussion with the types of containers and treatment of them by the contract company the town uses for weekly pick-up. Mr. Hinkle stated because the treatment of cans can be dreadful at times, that is why he got the large can probably over 90 gallons. The draft ordinance specified 30 gallons and he recommended the specified gallon amount removed and weight restriction kept at 90 pounds. The members present concurred.
- Reese mentioned she liked the time frame for setting the trash cans out for collection by 6:00 a.m. on day of collection. Location of receptacles shall be at the curb line in front of the building or structure. Receptacles shall not be placed out earlier than 6:00 p.m. on the day before collection and such receptacles shall be removed by 6:00 a.m. the day following collection.
- Councilman Britton mentioned the need to make sure the language of the town being responsible for bulk pick-up, brush, and large junk is removed for the revised ordinance to reflect current practices.

TOWN OF GLASGOW, VIRGINIA

-
- There was a long discussion about the need to limit the number of days a dumpster (bulk container) can be kept in town on residentially zoned property. The group discussed what would be a reasonable timeframe to remove the dumpster. The group recommended a 60 day limit and without charge or permit. A permit is required after 60 days and cost \$50. If one is not acquired, it shall be removed after 10 business days with a fine of no less than \$250 and no more than \$500.
