

MHS ROBOTICS TEAM 2992

August 2025

Seas the Day

NEWSLETTER

Hello, Robotics Families! 🤖

Did you miss me? Your friendly business girl is back and ready for action!

I hope everyone has enjoyed summer break and is ready for the new school year. In the meantime, here's some reminders and information for during the school year and a recap of Team 2992's summer.

REMINDERS/INFORMATION:

- Team paperwork is due **BEFORE SEPTEMBER 1ST** (paperwork on our website)
- Make sure all fees (team and booster fees) are paid **before September** as well
- School work comes before robotics! Keep those grades up!
- Students need a total of 70 hours by worlds; 50 team hours and 20 outreach hours
 - Team hours start counting in January with build season
 - Outreach hours are primarily earned during summer and fall
 - Team hours include build and non-build hours earned
- New year means new fundraisers! We ask that everyone (students and parents) all participate in whatever way they can to help us raise money for the robot!
- Details for anything is always on BAND or the website

Homecoming Parade (we ride in)

November 28

Barnes & Nobles Outreach Event
(check BAND for details)

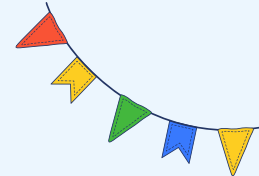

January 10
KICKOFF

“

The first day of school is the first step in a great adventure”

SUMMER/FALL BUILD SCHEDULE

Tuesdays and Thursdays

5:30pm - 8:30pm

LET'S TALK FUNDRAISERS

Dress Code at the shop is the school's. Students need to dress appropriately or they will be sent home. Keep it PG.

Fundraising is an essential part of our team and how we earn money to build our very expensive robot. We greatly appreciate both student and parent participation. Any concerns can be addressed with Mr. Lamb.

ROBOT FUNDRAISER - COMING SOON

Post it on social media, ask family and friends. If the robot is completed, booster fees (\$150) will be waived and the student receives a free game shirt!

Check your pits at the door

Quick reminder to your teens about our workshop environment! Since we work closely together in teams while building awesome robots.

Please come fresh and ready for action.

Remember that physical work = sweating, so pop on some deodorant before heading to the shop

Bringing a personal care kit (deodorant, fresh shirt) can be handy for those long build sessions

Sponsor Spotlight!

Thank you Chevron for their continued support for our annual Northshore Knockout event

Thank you to all our volunteers who helped making NSK & Stemfest such a success

EVENTS RECAP

State Capital Trip

Team 2992 was invited to the Louisiana State Capital in Baton Rouge to receive two (yes TWO) resolutions recognizing our role in spreading STEM and Robotics within our community. We got to tour the Capitol building and learn more about the legislative process. The team was also a guest of Lt. Governor Billy Nungesser for breakfast.

St. Tammany Proclamation

On June 5th, St. Tammany Parish awarded Team 2992 a proclamation officially declaring July 19th as Robotics and STEM awareness day in honor of our contribution to our community through Northshore Knockout.

Robotics camp

Our July summer camp where the team works as counselors and teach young students how to make a lego robot and introduce them to the world of robotics.

STEAM camp

Our June summer camp that focused on a new STEAM topic each day. Young students participate in activities while the team works as counselors helping.

Tulane Tour

The team was invited to the Tulane National Primate Research Center (TNPRC) to tour its facilities and monkey colony and learn more about biomedical engineering and research! Thank you to Mrs. Nadia for coordinating this event!

Shell Day

The team was invited to Shell to demonstrate our robot and interact with kids interested in STEM. It was an exciting event and the team members got to learn more about what Shell did. Thank you Mr. Corey for inviting us to participate in this event.

Northshore Knockout

Our annual off-season competition paired with STEM Fest for a day of fun! The team worked hard during the competition as we succeeded in winning first place with our alliance partners Denham Venom and Bayou Crusaders.

DINE TO DONATE! FUNDRAISING NIGHT

Support
**MANDEVILLE
ROBOTICS CLUB**
MON., AUGUST 18
3 - 9PM

10%

DONATION NIGHT

Support Mandeville Robotics Club by presenting this flyer to the Covington, LA location and Texas Roadhouse will donate 10% of your total food purchases to Mandeville Robotics Club!

(985) 867-8008
6025 PINNACLE PARKWAY
COVINGTON, LA

Come support Mandeville High School Robotics!

Proceeds to help support Team 2992 with the robot build as well as purchase of necessary equipment and supplies for community outreach events
