

Traditional Primary Care vs. Concierge Medicine

Doctors see 2,000-3,000 patients total and 20-35 patients per day

Doctors see 400-600 patients total and 6-10 patients per day

Appointments average 10-15 minutes

Appointments average 30 minutes

Difficult to get last minute acute appointments

Same or next-day acute appointments

Hard to get the care you need when you need it

Offers 24/1/365 access to care

Standard tests and screenings for annual physicals

In-depth and advanced physicals and screenings

**Where Patients
Come First Again!
Care, the way
it should be.**

Healthcare That Feels Like It Should

At Eden Integrated Health & Wellness, you are more than a chart, a number, or a diagnosis.

You are heard. You are valued.
You are cared for—completely.

*Let's take your health back
- together.*

Serving our local community with personalized care

**Tired of
“Normal Labs”...
But You Still Feel Off?**

Finally, healthcare that listens, investigates, and treats the whole you.

Personalized • Unrushed •
Root-Cause Focused Care

**“Break up with the
5-minute visit.”**

Eden

Integrated Health & Wellness

You Deserve More Than a 5-Minute Visit

If you've ever felt:

- Rushed through appointments
- Dismissed or unheard
- Told "everything looks normal" when you don't feel normal
- Frustrated navigating insurance and receiving surprise bills

You are not alone.

**At Eden Integrated Health
& Wellness, we do things
differently.**

We take the time to listen, investigate, and partner with you—so you can finally get real answers and real results.

What is Direct Primary Care (DPC)?

Direct Primary Care is a membership-based model that removes insurance barriers and puts the focus back on you.

With DPC, you get:

- Longer, unhurried visits
- Same-day or next-day appointments
- Direct access to your provider
- Transparent, simple pricing
- No copays. No surprise bills.

This means more time to:

Understand your symptoms
Address root causes
Build a real provider-patient relationship

What We Offer

At Eden, we combine primary care with a functional, whole-body approach:

Comprehensive Primary Care
Chronic Disease Management
Weight Loss & Metabolic Health
Hormone Optimization
Preventive & Lifestyle Medicine
Discounted Labs & Medications

**Helping patients
who feel overlooked,
overwhelmed with
complex issues, or
“not quite right”
finally get answers.**
