

MACHINED HD SMART COVE

Manufactured using an exclusive process, **HD Smart Cove** is a revolutionary product for liquid or trowel-applied flooring applications. **HD Smart Cove** may look like MDF, but it is not. **HD Smart Cove** is manufactured using a proprietary blend of resin rich fibers using a patented and exclusive manufacturing process that make the **HD Smart Cove** system so very easy to install and incredibly resistant to decay and mold caused by humid conditions.

The HD Smart Cove Advantage

- Machined cove - rounded, doweled and primed in epoxy and ready to install – no taping, no messy priming, no mortar mixing & no troweling required;
- Simply set your laser level at desired height, mark, and fasten HD Smart Cove;
- 4", 6" and 12" formats available in 8' lengths (1/2" thickness);
- Available in smooth single-color finish, vinyl flakes, and decorative quartz-straight out of the box – ready for finish coat;
- Can be mechanically fastened and / or glued to concrete blocks, drywall, wood, metal and plastic wall panels and contaminated surfaces where traditional liquid or troweled on coves do not adhere;
- Easy to install, modify / cut on site with simple tools;
- Extremely tolerant to humidity – Very high resistance to mould and rot;
- Insensitive to cold or frozen substrates;
- Machined recessed joints for easy and seamless sealing with HD Smart Cove Adhesive & Joint sealing compound.
- Easy and quick rounded wall/ floor joint installation with HD Smart Cove Adhesive & Joint sealing compound.
- Exceptional speed of installation: Huge savings on material and labor costs.

Available Formats & Finishes

Joints are machined for a seamless and sealed finish

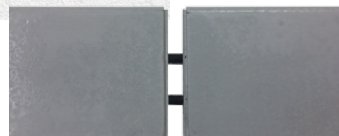

4" x 96" x 1/2"

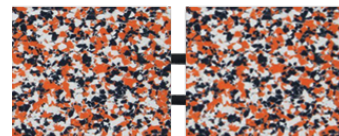

6" x 96" x 1/2"

12" x 96" x 1/2"

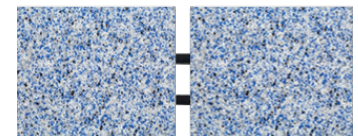

All standard formats available in 8' lengths.
**Custom fabrication available

Smooth Finish– Solid Colors
Factory applied epoxy primer and base coat
Factory sanded surface
Ready for finish coat application
