Keep **earth** in business

WHY CHOOSE HOLLEN?

- WE WORK WITH THE BEST!

IceGreen has emerged as a leading international manufacturer of eco-packaging products. We're a Canadian owned and operated company. Coming from a land famous for its rich, natural resources, we understand the value of preserving the environment. We're spreading that message globally by sending our eco-friendly packaging products around the world.

Our factories are located in Canada, the U.S.A., China and India; all are 9001-2000-certified. IceGreen has distribution centers across North America and we are able to ship worldwide.

We work with retail, grocery, restaurants, hotels, wineries, auto dealerships, and many other industries trying to green their brand. Commitment to our customers include an in-house graphics design team, quality control checks, and a dedicated customer service and sales team that will help turn your idea into reality.

We manufacture custom printed reusable bags, thermal bags, paper bags, eco-friendly poly bags, nylon bags, and tree-free stone paper bags.

We offer a wide range of materials including cotton, bamboo, recycled PET, FSC-certified Kraft paper, and many others; most of our materials used contain recycled content and are recyclable as well.

We also offer eco-jewellery packaging & gift boxes, recycled gift wrap, and eco-friendly plain tissue paper.

REUSABLE BAGS

All of our bags below are available in custom sizes, custom materials, custom printing (including hot-stamping) and custom design options.

Design options include specialty handles, foldable bags, pockets, snaps, zippers, and velcro closures.

Materials include Non-Woven Polypropylene (PP), Woven PP, Recycled PET, Cotton, Bamboo and Nylon.

SILKSCREENED NON-WOVEN PP BAGS

These non-woven reusable bags are an excellent alternative to plastic bags. They're ideal for grocery chains, promotional events, conferences, trade show giveaways and so much more. Ideal for solid colour logos. These bags can also be hotstamped.

LAMINATED NON-WOVEN PP BAGS

These laminated non-woven reusable bags are ideal for a full-bag design, with a water-resistant outer coating. Available in glossy or matte finish. Perfect for photos and full-colour graphics.

LAMINATED WOVEN PP BAGS

Woven polypropylene is an extremely durable water-resistant material, able to hold the most weight of all of our reusable fabrics. As they are laminated, they are also ideal for a full-bag design. Great for gardening stores, municipalities, recycling bags, etc.

REUSABLE BOTTLE BAGS

Our bottle bags are a great idea for any type of bottle, big or small. Available in many shapes and sizes, from single-bottle to 6-bottle wine stars and with standard or moveable partitions.

Can be made in any material.

THERMAL BAGS

ICEGREEN's ultrasonic insulated thermal bags are strong, durable, and ideal for carrying either hot or cold items, keeping hot food hot or cold food cold for up to 3 hours.

All of our bags below are available in custom sizes, custom materials, custom printing (including hot-stamping) and custom design options. Design options include specialty handles, pockets, snaps, flaps, zippers, and velcro closures. Materials include Non-Woven Polypropylene (PP), Woven PP, and Ultrasonic Non-Woven PP.

NON-WOVEN PP THERMAL/COOLER BAGS

Our cooler bags come complete with a zipper around the top of the bag for easy access, along with strong and comfortable handles for carrying convenience. Choose from the traditional rectangular shape or a sleek triangular look.

Available Silkscreened, Laminated, or in Woven PP material.

ULTRASONIC THERMAL/COOLER BAGS

"Ultrasonic" refers to how these bags are put together. They're not sewn together but are instead sealed together using a special manufacturing process that makes them extra-strong and durable. The top zipper on these bags helps to retain the internal temperature of the product placed inside of it, whether it be frozen ice cream or hot food from the deli counter.

Can be made into a handy lunch-bag size as well!

REUSABLE CUSTOMER TAKE-AWAY PIZZA BAGS

These reusable pizza bags are a fast and easy way for your customers to take their fresh pizzas home from your store! Made from laminated non-woven or woven polypropylene material with a fold-over flap secured with velcro to help keep the pizza warm. Metal grommets release excess moisture to prevent a soggy crust.

These bags can be made as small or as large as you require and can also be tailor-made to fit any take-out container.

THE SIGNATURE SERIES

All of our bags below are available in custom sizes, custom materials, custom printing (including hot-stamping) and custom design options.

These bags can all be private-labelled for retail sale.

LUMPYSAC - easy to carry, hard to forget!

The lumpysac is a fantastic alternative to reusable bags. Made from 100% recycled PET material, it is lightweight, durable, washable and reusable. It stuffs into its own inner built-in pouch for easy storage. Bag dimensions are 43cmH x 40cmL x 11cm gusset. Handles are perfect length for easy shoulder carrying.

Available in a variety of material colours.

LUMPYSAC 3-IN-1

The lumpysac 3-in-1 is a 3-bag version of the single lumpysac. There are 3 lumpysacs that scrunch into a larger built-in pouch, sewn into one of the 3 bags so it's impossible to lose. Great for easy storage.

Available in a variety of material colours.

ICEGREEN SIGNATURE HOT/COLD TO-GO BAGS

Keep your food and beverages hot or cold for up to 3 hours! Use Our To-Go Thermal Bag for:

- Take-out • Frozen foods • Perishables and Cold Drinks

Take it with you for any activity!

- Sporting Events • Farmer's Market Shopping • Picnics

Lightweight and durable, this bag is a convenient and eco-friendly way to transport your hot or cold items. This bag insulates contents from the outside world, keeping them cool or hot longer than an ordinary bag.

Available in two sizes: 14.25"H x 11.75"W x 6.75" gusset and 14"H x 19"W x 8.5" gusset.

OTHER ECO-BAGS

All of our bags below are available in custom sizes, custom materials, custom printing (including hot-stamping) and custom design options.

Design options include specialty handles, foldable bags, pockets, snaps, zippers, and velcro closures.

ECO-FRIENDLY LAUNDRY BAG

A green option to replace standard plastic laundry bags. A great marketing tool for hotels, resorts, cruise ships, dry-cleaning stores, universities, colleges, etc. Print your name on the bags and have your customers or students reuse them time after time!

Dimensions are: 48 x 49cm - can be custom sized.

Made from 80gsm washable non-woven PP material.

REUSABLE NEWSPAPER BAG

This bag can be made for indoor or outdoor use, depending upon the fabric you choose. Designed to hang complimentary newspapers on hotel room doorknobs, but can be modified with a flap and a snap for community newspaper delivery - keeps the papers dry!

NON-WOVEN T-SHIRT BAG

Create a walking billboard with reusable nonwoven T-shirt bags. Inexpensive and environmentally friendly, reusable nonwoven t-shirt bags are the perfect solution to plastic bags. Made from nonwoven material and heat-sealed by an automatic machine, these reusable bags are available in different sizes and material thicknesses.

POLY BAGS

For those who prefer to stay with the traditional look of 'plastic' bags, we offer eco-friendly alternatives such as:

- **100% COMPOSTABLE BAGS** made from marine waste.
- **RECYCLED PLASTIC BAGS** made from 10% up to 100% recycled materials - you choose the amount of recycled content!
- **EPI /OXO-BIODEGRADABLE BAGS**, containing PLA resin derived from corn and other non-petroleum material. These bags disintegrate and biodegrade quickly and safely when properly composted.

PAPER BAGS

All of our paper bags are available in custom sizes, custom materials, custom printing (including hot-stamping) and custom design options.

Design options include specialty handles, specialty shapes, pockets, snaps, and velcro closures.

KRAFT

Reusable recycled paper products use less energy and water in their production and produce less waste and pollution throughout their life than single-use plastic bags and even non-recycled paper products.

STONE PAPER - TREE-FREE

Our Stone Paper bags are 100 % tree-free and are manufactured using a mineral-based process. This revolutionary production method saves trees and water, requires less energy and produces less waste than traditional paper bag manufacturing. Strong, durable, water- and tear-resistant, tree-free stone paper bags are a great way to package and protect store-bought items for the ride home.

LAMINATED

Laminated paper bags are perfect for regular retail shop packaging or promotional events and are available in a wide-variety of shapes, colors and sizes. Reusable and durable, laminated art paper bags can be brought home with customers from gift shops, retail stores, gourmet food stores, cafes, hotels, clothing stores and more. They'll keep your wares safe and dry while promoting your brand around town.

WINE / BOTTLE BAGS

Our paper bottle bags are a great idea for any type of bottle, big or small. Available in many shapes and sizes and can be made in any type of paper, including Stone Paper.

ABOUT HOLLEN INDUSTRIES

Hollen Industries Ltd is Western Canada's only third-party procurement and product supply center. Hollen Industries was born out of the understanding that companies need the ability to work with product experts in order to best meet their needs and budgets. Each purchase they make is an investment in their business and subsequent success.

Though established in 2019, its management has been in the supply industry for over 20 years; both as a supplier and a consumer. While leading one of Canada's top supply companies, it became apparent that it wasn't enough to be a distributor, but one needed to be a dedicated and educated provider. It is important to know and understand the right product to meet businesses growing demands. This understanding is what makes Hollen Industries different from other competitors.

Hollen Industries offers products lines that are distinct in the market, meeting a wide range of needs for the everyday business. Products that will assist you in developing and maintaining your business to the highest standards.
