

## Introducing the TECHSTAR DC-10

Your store or business has an array of departments and divisions. In many stores, color coding the materials is used in those departments to find peace of mind; eliminating and greatly reducing issues with cross contamination. They allow for your workplace to easily identify, organize and bring instant accountability to each department or division.

Made from high-quality, FDA-compliant materials, and available in a variety of colors these are ideal for our food-safe clients and for those that need or want to adhere to color-coding plans. We also carry a variety of replacement parts for these carts and trucks.

### BUY MORE SAVE MORE
