DAY 03 in Naivasha

There is just one "Crescent Island Game Sanctuary". Located on Lake Naivasha, in the Great Rift Valley, Kenya. It is one of the most beautiful parks in Kenya and is often called Naivasha's best-kept secret. Surrounded by water, it is actually a peninsula and is currently only accessible by boat from the East or West side.

The shores host abundant birdlife including pelicans, cormorants, and fish-eagles with their haunting cry. There are more animals per acre than any other Kenyan Park, hence many film companies have been to the Island to film the herds of Wildebeest, Waterbuck, Zebra, and Gazelle.

Hippo graze all over us at night then sleep under the acacia or rest in the water by day. Often you can see three generations of Giraffe at a time, all of whom have been born on the Island. And if you're lucky you may see one of the beautiful Pythons who live here.

From the top of the hill, there is a 360-degree view across the Lake from Longonot to Hell's Gate to the Mau Escarpment to Eburu and onto the Aberdares. Walking along the ridge in the golden hour before sunset whilst watching the animals grazing with the water shimmering beyond, is what Africa is all about.
