

Christian Education Committee Annual Report 2018

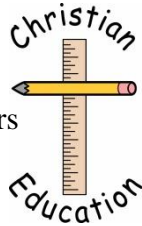

The Christian Education Committee oversees the education programs for the people in our congregation. Programs for children and youth are delivered by two part time staff, Stephanie Knibbs and Kendra Gonczy. A summary of their programs are included in the Annual Report. Programs for adults are divided between Reverend Barnabas and our committee.

Barnabas hosted two book studies this year, one in spring and the other in the fall. Our committee hosted programs focussed on specific topics which included Truth and Reconciliation with Indigenous People and an online video series on Humour and Spirituality.

Presently our committee is discussing ways in which to identify the needs of various demographic groups within our congregation. We are hoping surveying the congregation in the near future will help guide us in this matter.

We are so deeply appreciative of the team approach that Kendra, Stephanie, Colleen and Barnabas bring to their work by sharing their talents, passion and energy to enhance the Christian education of our congregation.

FELLOWSHIP COMMITTEE REPORT 2018

The Fellowship Committee was very active in hosting 8 Pot Luck dinners in 2018 plus helped to put on the Sunday School Windup in June. We want to thank the Congregation for helping make this important social time such a success. The Turkey Supper enabled us to make a generous donation to the general coffers of the Church. Again this could not have been done without the support of the Congregation who helped work at the supper, donated delicious food and of course came and ate. We were able to use the leftover food too, as a donation to the Mental Health Association and also provided the Congregation with a “Left Over Turkey” Potluck that was enjoyed by many in November. As chair, I would like to thank my Committee members who work so hard at making these events successful.

Respectfully submitted by Pat May
