

Registration Part I – Signup Instructions

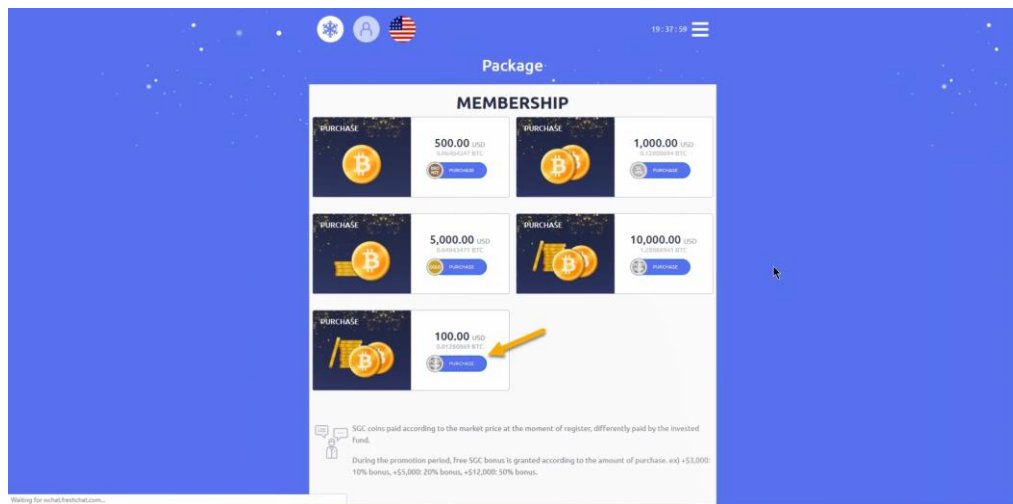

Step 1.) Go to <https://mlm.suponicsport.com/login> to register. Click on the Register link located inside the box below.

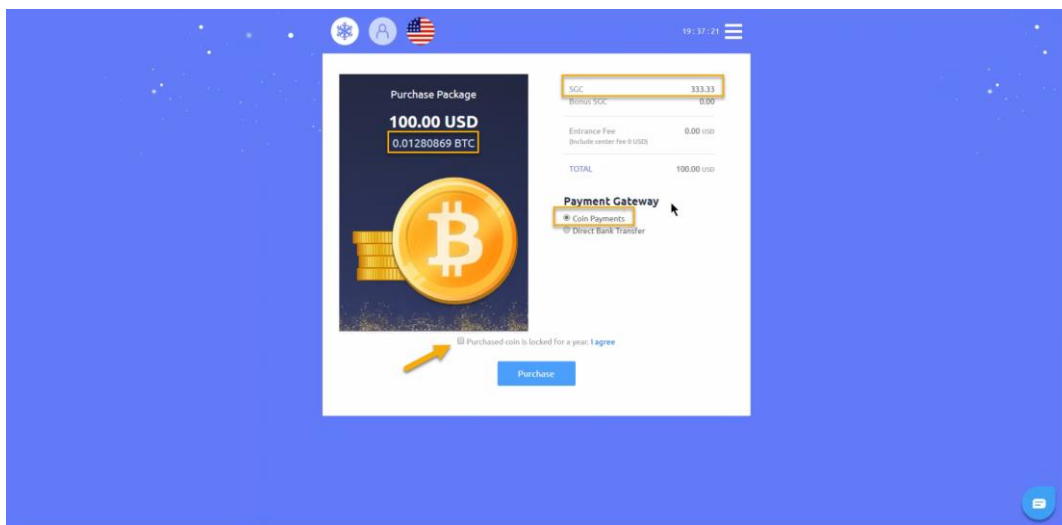

Step3.) Proceed with filling out the signup form. Here you can create a User ID and Password of your choice. The recommendation code is the same as your sponsor ID. When entering your cell phone number, you must click on the Verify Code button in order to complete this form. You will then receive a text message with the code. Input the code once received and make sure you agree to terms and conditions by selecting the radio button below. Any errors when filling out the form will appear in RED with a description. You then can make corrections as needed.

A screenshot of the SUPONIC GLOBAL SIGN UP form. The form is white and centered on a blue background with a starry space theme. The title "SUPONIC GLOBAL SIGN UP" is at the top. The form fields include: "Recommendation code" (with a dropdown menu showing "South Korea"), "User ID", "Enter E-mail", "First name" and "Last name" (separate fields), "Phone Number" (with a dropdown menu showing "Korea Republic (OE +82)" and a "Send Verification Code" button), "Phone verification code", "Password", "Password confirm", and a radio button for "I agree to Terms & conditions". At the bottom are "Close" and "Next" buttons.

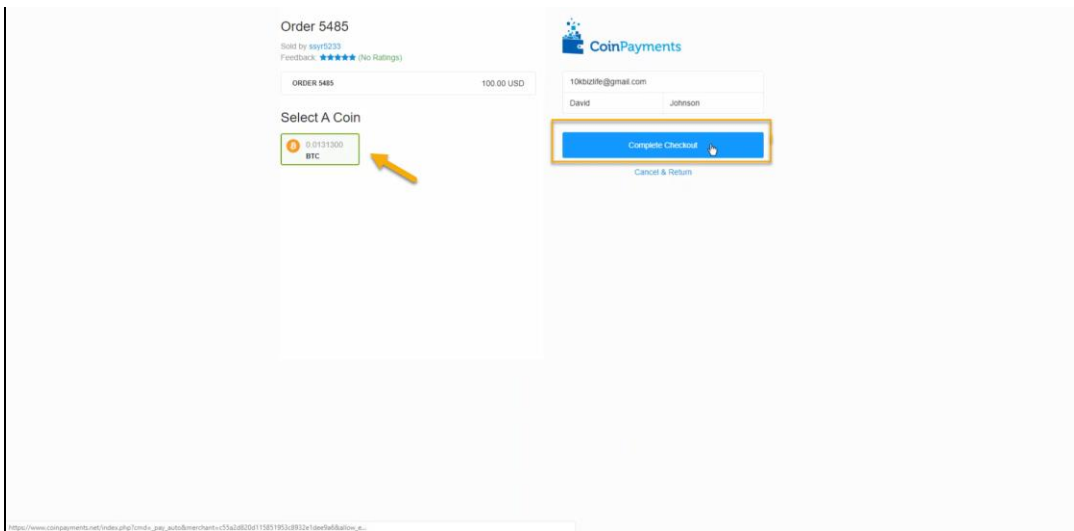

Step 4.) Select the package amount by clicking on the Purchase icon. In this case we will use the purchase of a \$100 SGC package as the example.

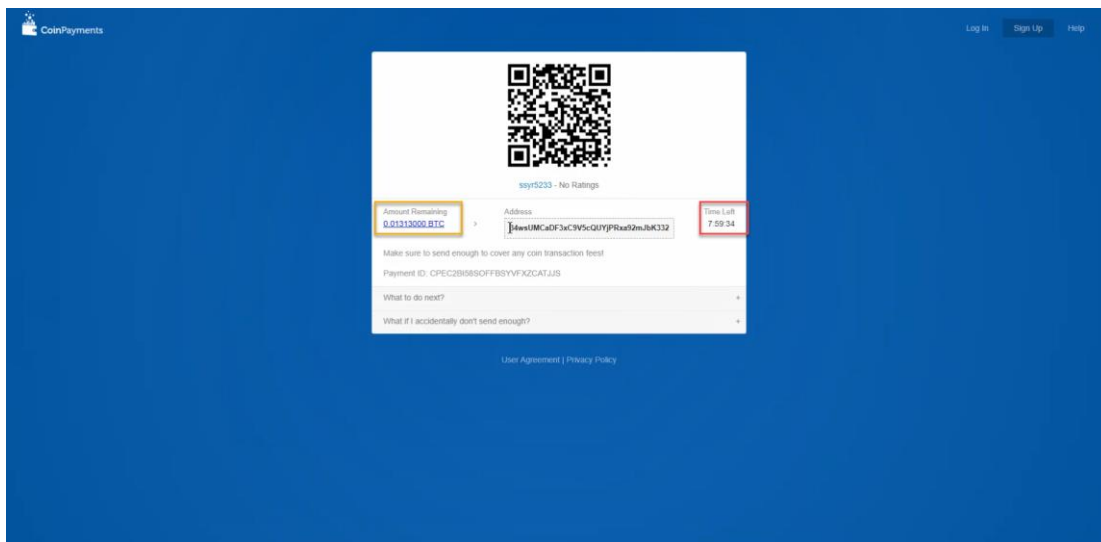

Step 5.) Make a note of the BTC amount located in the box below. Saponic Global is only using the Coin Payment process for now. Make sure to select that option only! Checkmark the box to agree to the Purchase coin agreement below and then click the Purchase button to continue to the next payment process page.

Step 7.) Click on the BTC box on the left for payment method. There will be more crypto options in the future for payments. Then click on the Complete Checkout button on the right.

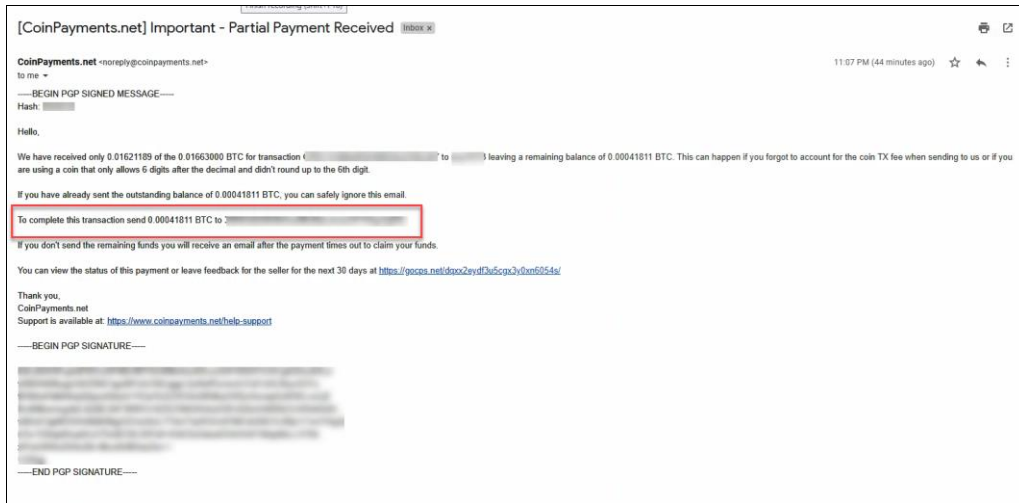

Step 8.) Now you can use your cell phone to scan the QR code to add the hash address to your crypto wallet to send the \$100 payment or copy and paste the hash address to your crypto app of choice as well.

IMPORTANT: It is very important to add a little more BTC to cover transfer fees or your payment will not complete.

In the event you that you received a **Partial Payment** email, you must send the BTC difference as shown in the red box below to the same hash address. Again, if this is not done within the active payment time out the process will expire and then will need to file a claim for a refund.

Note: Once your payment is complete your sponsor will receive a notification to remind them to add the member to the sponsors genealogy. Until this task is done you will not be able to login to your Suponic Global backoffice.
