Thank you for choosing Egan Hypnotherapy.

Please read and sign this form before completing the rest of the forms.

During your first visit to Egan Hypnotherapy, you will meet with a professionally trained hypnotist from the National Guild of Hypnotists to learn about hypnosis and how it can help you achieve your goals. All scheduled visits will include a customized hypnotic session. **Sessions are scheduled as 45-60 minutes, with the exception of the first meeting in which 75-90 minutes will be planned.** We try to keep to a strict schedule, but occasionally we may run long. If we're running a little off-schedule, please know that it's always for a good reason.

Hypnosis is a very powerful process that has helped millions of people make changes that they want to make in their lives. However, hypnosis is not "mind control." For example, no one, not even the very best hypnotist, could MAKE you change your habits or behaviors. Ultimately, you are responsible for the changes that occur as a result of the hypnosis sessions. There is always a human factor. Doctors don't guarantee that you will get well. Teachers can't guarantee that you will learn, and lawyers can't guarantee that you will "win" your case. **At Egan Hypnotherapy, what we can guarantee is the very best service using current information and appropriate hypnotic techniques for your situation.**

Our goal is to provide you with the most effective hypnosis process in the most efficient use of your time. We begin your process with a systematic series of sessions that include customization for your unique set of needs, continued reinforcement, and self-hypnosis training. Many clients reach their goals in the initially scheduled sessions, and most people (but not everyone) begin to experience benefits from the very first session. Hypnosis is a process. Many clients elect to schedule follow-up sessions for reinforcement or coaching.

"By signing this, I understand that hypnosis and hypnotherapy are not meant to diagnose or treat any disease, but rather it is intended to provide information, education, and motivation that will promote feeling better, healing faster, and generally being more effective. It is designed to give me insight and tools into my innate healing potential and guide me into being more effective in helping myself. I also realize that hypnosis and hypnotherapy are not a substitute for conventional medicine, and I have been encouraged to seek the advice of a licensed health care provider should I choose to with regard to treating me for specific medical or psychological problems. I accept responsibility to share the enclosed "Dear Health Care Provider" letter with my doctor to notify my use of hypnotism

By signing this, I am stating that I have read this form and understand that, like the other healing arts, the practice of hypnosis and hypnotherapy, is not an exact science: Therefore, results are not guaranteed, nor are refunds given for services rendered."

Dear Health Care Provider:

I have been contacted by your patient requesting instruction in self-hypnosis. It is my policy to be sure that the attending physician or other health care provider is aware that the patient is practicing hypnotism and will likely experience less worry and discomfort than other patients. Research suggests there may be other general health benefits as well.

Consulting Hypnotism is motivational coaching by means of hypnotism and is not considered health care. Therefore, health insurance does not normally cover hypnotism and your patient will be paying me directly for my services.

If you have any objection to your patient receiving hypnotism would you inform me? If there is anything in particular you would like to include in my work with your patient, please let me know.

I am a Consulting Hypnotist in good standing with the National Guild of Hypnotists and my continuing education is current. I practice in accordance with the Code of Ethics, Standards of Practice and Recommended Terminology of the National Guild of Hypnotists, and give every client a comprehensive Client Bill of Rights which fully discloses my training and practice limits.

Please feel free to learn more about my services and background from my web site. I would also be happy to discuss my services with you at your convenience.

Sincerely,

Angie Egan
