WARDROBE ACCESSORIES

Store. Hang. Protect. Contain. Pull-out. Shelves. The Salice Excessories Collection provides elegant and highly desirable enhancements to everything that wardrobes are used for, with an almost infinite variety of beautiful products that can be customised to suit your own individual taste and needs.

Exquisitely designed gloveboxes, coat hangers, trays and much more, breathe new life into bedroom design by transforming simple storage - ingeniously optimising space with stunning interior design possibilities.

The drawers and the illuminated shelves, symbolic of a refined, elegant and rigorous minimalism, are the perfect combination of technological development and aesthetics, ensuring that the contents of the wardrobe are perfectly stored and displayed.

A tasteful palette of colours and a range of surface textures ensures both the freedom to personalise the selection of accessories and their perfect compatibility with wardrobes of any design and material.

accessories
store

Beautifully-proportioned glovebox trays which can accommodate a selection of storage elements for items that require special care and attention.

In particular, the collection includes watch-holder trays, spectacle holders, ring holders, earring holders, made of imitation leather, available in various colours and dimensions, according to individual aesthetic and functional requirements.

Purpose-made holders for wristwatches, rings and earrings fit perfectly within elegant drawer inserts.

The inserts can also be placed on drawer bottoms, made of imitation leather, thus creating a precious and highly aesthetic drawer, able to embellish all the stored items.

Like the gloveboxes, the drawer bottoms with three dividers, made of imitation leather, can be also used to store ties, scarves or belts.

accessories
hang

A multiplicity of options to hang clothes and accessories neatly and to keep them looking their best. Hangers, cloth and bag hangers, scarf, tie and belt holders made of wenge-dyed beech wood can be now fully personalised with precious inserts or leather supports with many possible combinations.

In the same way, even the most functional items, such as hanger rods can be equipped with a leather sleeve.

Details always make the difference. The collection also boasts an extractable or rotating coat hanging hook which, when fixed to the shelf, offers an additional handy support when needed.

Accessories which protect clothes and keep them with elegance inside the wardrobe. The fabric holder bags, height adjustable and provided with pleats to easily contain bulky items of clothing, are made of 100% cotton and available in various colours.

The elegant coat-holder bags can be folded with buttons made of wenge-oyed olive wood.

Several dimensions and multiple finishes to select, both boxes and trays can be embellished with a tab and/or a front label made of imitation leather.

Boxes and trays for clothing or other items, covered with elegant fabric, enable the internal space to be organised and enriched with tones and colours.

The drawers too, available in different versions and heights, play a central role in the Excessories collection.

4-sides aluminium drawers, characterized by elegant shapes and a futuristic style, come with bottoms made of wood, glass or imitation leather.

A classic synthesis of technological development and design, they stand out for the elegance of the profiles, oozing perfect aesthetics and smooth and sinuous shapes, also enabling, from a functional point of view, the easy cleaning of the drawer bottom.

3-sided aluminium drawers with wooden frontal are also available.

Thanks to an easy and quick assembly and a clean and refined aesthetics, the drawers are perfectly compatible with wardrobes of any design and material. No technical element is visible.

The drawers with glass frontals make the wardrobe even more elegant and desirable.

The drawers are unique and highly distinctive thanks to their faultless design, the attention to details and their sophisticated working, especially between the side and the frontal.

A range of accessories for drawers is also included in the collection: trouser and skirt hangers, shoe racks in mesh or sheet metal and bed linen storage compartments made of quilted fabric.

The Excessories collection is the answer to any possible applications, always offering the best solution.
The side spacers, for example, used in case of wardrobes with double or sliding doors, allow the perfect pulling out of the drawer, without hitting the doors of the wardrobe.

eXcessories
shelves

Nowadays the light plays a vital role in walk-in wardrobes. The illuminated shelves of the collection bring clothes and accessories to life; the wardrobe lights up and animates all the stored items.

The lighting system is perfectly hidden and the shelf bottoms, made of glass, amplify even more the brightness and the luminance.

The hanger rail, and the special refined working of its supports, complete and embellish the product design.
