History of Dutch Integration Exams

- Urban citizenship in the Netherlands before the Dutch Republic.
- Early efforts for integration: Non-committal language and orientation courses.
- Transition towards structured integration policies in the late 20th century.
- Introduction of the [Civic Integration Act in 2021](#), focusing on language and work experience.

Current Dutch Integration Process

- Mandatory integration exams focusing on language and societal participation.
- Different learning routes tailored to individual needs: B1 route, education route, and self-reliance route.
- Municipalities play a crucial role in the integration process under the new law.
- Aim to enable quicker and more effective integration into Dutch society.
