IMPACTOR (Increasing Local Impact of NGOs)

PILOESTI, ROMANIA 1-9 APRIL 2019

Problem we are aiming to tackle : the impact of Erasmus+ project is rarely extended beyond individual level, in the local communities where participants go back after the projects.

WHAT DO YOU MEAN YOU HAVEN'T KNOWN YOUTH EURASIA YET?

Youth Eurasia was created in 2013 by Marneasa University students. It has been working in youth field both national and international level more than 12 years. It has changed many youth's lives in a better way so far. And now it is time to change your lives. Are you ready? If you are indecisive let's have a look what Youth Eurasia is and what it can promise you.

Youth Eurasia was a small group when it was created at first. But there were (are) people who want to try or succeed. This was (is) the most important source of motivation for us. Our aim was (is) to reach young people from Turkey and all around the world.

Now, we are waiting for the people who want to try and change something for themselves and for the world. We believe in you and we want you to believe in yourselves.

Because we know that there is something (even a small thing) you can change. Each of you means a new idea and maybe someone in the world may need your idea.

Now, get up from your seats, brake your shells and step into **YOUTH EURASIA'S WORLD.**

We have a window for each of you and we think that it is time to watch the sun rise from our windows. And we need your perspectives.

We wanted to transform the integrating power of the young people's competences into innovative civil projects that are beneficial to the society. Of course, we have failed many times but we have never given up because we have believed that we can change something. We tried again and again. Now, we have reached 20 000 people in the world and there are 50000 volunteers in our organization. They believe us and we believe them. That is the reason why we never lose our motivation. Because whenever we are hopeless, there are many friends/people who will hold our hands. And the most important part of this relation is that it is not for profit but just voluntarily.

URBAN GARDENING

KA2

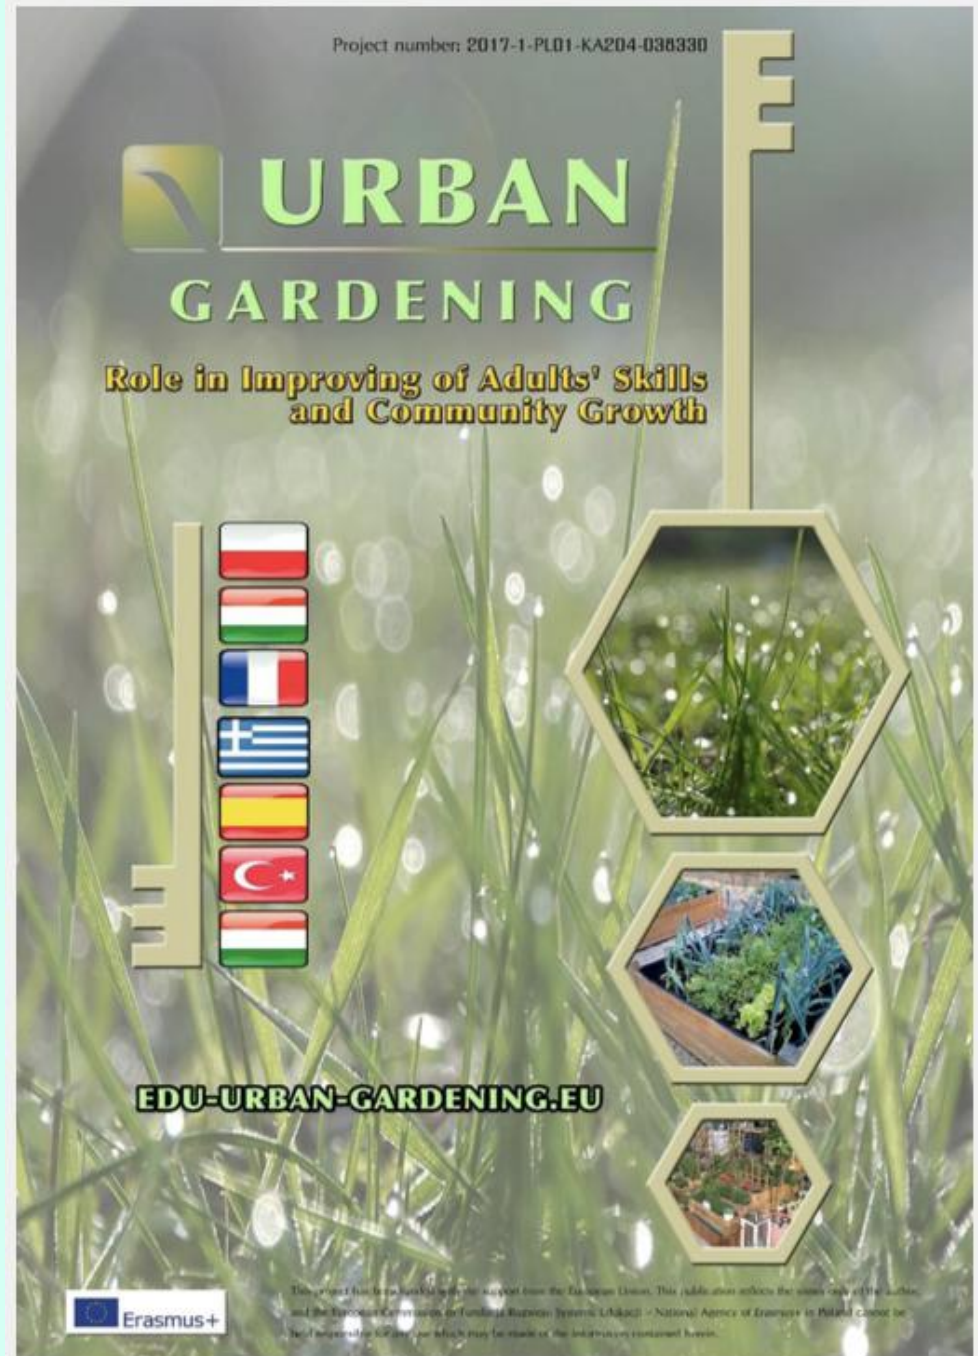

2017 JULY – 2019 JULY

The URBAN GARDENING project will encourage active participation and education the local community members, through setting up and maintaining the urban gardens.

The project aims is to elaborate an innovative educational method to teach soft skills by the work in the garden, e.g. interpersonal communication, team work, management, planning.

23 October · 

No doubt, if you have the opportunity to work with Youth Eurasia, do not miss this opportunity! 

So far I have had the chance to take part in their various national / international events and projects. And as I have seen, they are very attentive in partnership. 

In short, they always do their job in the best way and pay attention for their responsibilities.

Amazing experience with the project "Let's spread the world". The organizers were really friendly, outgoing and chill, but still managed to organize really great discussions and activities!
