Social Media Inner Light Embodiment

Erasmus+ Youth Exchange project mobility has realized in Istanbul between 24 September – 4 October 2021 in Istanbul, Turkey. The project hosted by Youth Eurasia with the partnership of 6 partner organizations from Romania, France, Austria, Spain, Greece and Lithuania. The project aim is developing the skills, knowledge and competences of young people to analyze objectively their own internet usage practices and their critical thinking on social media by using non-formal learning methods.

SMILE - Short Movie

Local Activity

On the 6th day of mobility in SMILE project, participants had chance to meet and hold Q&A session with a social media expert Erem Şentürk. He had panel speech and Q&A with our participants regarding to social media during the mobility.

Also the mayor of Basaksehir Municipality has welcomed our participants and introduced the related works of youth centers and municipality.

Local Activity - Video

<https://www.youtube.com/watch?v=O-RVp34zcgM>

The participants has explored Youtube Academy, Radio Basaksehir, e-games center and living lab where young people use the digital space for entrepreneurship and self development. Our participants had chance to observe practical activities related to new media and technology.

Afterwards, the Mayor of Basaksehir Municipality which is the local partner of Youth Eurasia has invited SMILE project participants to explore Turkish cuisine and participants had dinner altogether with Yasin KARTOĞLU, the mayor of Basaksehir Municipality.

Participant Overviews

At the end of mobility the participants has improved various skills, knowledge and competences in different aspects regarding to new media space, social media and technolopt itself. Some of the overciews has been shared by participants:

— “

I've developed my critical thinking skills on media. Also, intercultural learning part was important for me.

” —

— “

I improved social skills as we had lots of opportunities to practice presenting or engage in discussions

” —

— “

I once again realised that no matter where are you from you can still have something common with people from other countries.

” —

— “

I feel more comfortable talking in front of big groups. Thank you for everything. Was a great experience

” —

— “ —————

Public speech, problem solving skills, situational awareness, timing coordination.

————— ” —

— “ —————

Understanding the concept of social media and how it can be more useful for humanity

————— ” —

— “ —————

I have been informed about how to integrate technology into my life in a more productive way, I also got inspiration with new entrepreneurial ideas in new media space, especially during the local visit of e-games center, Youtube Academy and stories of young entrepreneurs using technology

————— ” —
