## **Greetings!**

**Welcome to The Virginia Assembly!** We hope this message from our New Inquiry and Outreach Committee provides both guidance and an introduction. Let me be the first, or one of the first, to welcome you to our American state national family! i am currently acting on behalf of The Virginia Assembly to facilitate, for the people, the process of declaring yourself as an American state national. In doing so, you will **return to the Land and soil, the proper jurisdictions for the Living men, women, sons, and daughters of this world.**

Please visit our website often for more information and education. We are working to make it a singular focus for the people on Virginia to stay present with the documents, events and information produced by our Lawful Governance Structure and it is updated regularly. The recording process may also be found there.

Notice: **If you choose to use Status Select for document preparation**, please have them prepared using a State of State notary box rather than a Recording Secretary notary box! You will utilize a De-Facto notary and one of our Recording Secretaries will record (not notarize) them on the Land Recording Office (LRO).

The Assembly acknowledges that each of you finds yourself on our doorstep from an individual and unique path and with variable levels of available time for research and study. Currently, **many are finding it expedient to use the International Land Recording Service to record their 1779 Declarations and other documents for a quick return to the Land and soil.** This also provides the option and benefit of setting up an account with the Global Family service that will connect you to the new Bilateral Banking and Prosperity system. The website can be found here - **The Global Family Group, International Lawful Land & Soil, Recording and Publishing System for the World.**

For more information you may use the search feature at the website and archives of Anna Von Reitz (AVR) where she discusses the Global Family Group, as it applies to The Global Family International Trade Bank and The Global Family Bank of Commerce, a bi-lateral, blue-dot system that she terms a “Prosperity System”, not a bank in the sense that we are

familiar with. This is the beginning of the return and recoupment of long stolen American assets.

**For those that desire to complete the initial paperwork process (1779 Documents and others) with one of our Recording Secretaries on Virginia to be recorded on the Public Record on The Land Recording Office (LRO), please jump to the attached document titled “*Land Recorder’s Page*” to bring that process into focus with the guiding words of Shirley Bryant, a Virginia Assembly Recording Secretary. Please do your utmost to have your documents in proper recording form before submitting them to our Recording Secretaries.**

**Templates and video guidance are readily available on our website:**

**And on The American States Assembly Website at:**

<https://tasa.americanstatenationals.org/chart-your-course/>

**If you would like to have someone in the States Assemblies prepare your paperwork for you for a fee, contact the people at <http://mystatusselect.com/>. Status Select is not directly associated with The Virginia Assembly but your completed paperwork will be forwarded to Virginia and then you will follow up with one of our Recording Secretaries to complete the process of recording on the LRO.** If this is your chosen path you may want to consider also utilizing the recording system of The Global Family Group mentioned above, however, it is not necessary to use more than one Land Recording system for your paperwork. Please be patient with anyone assisting you as we are all volunteers and juggle many hats and full lives.

As always, **Self-Governance requires that you research before you act and discern your own path.** The way home to the Land and soil is not the same for each man or woman as we are each unique and arrive under different circumstance. We can no longer concede our choices to an external voice or pressure and must seek our Guidance from within. The Virginia Assembly is here to share knowledge and support; no one can “do it for” you. We

are grateful to have your interest in reinvigorating the Land and soil with the love, energy, and the vitality of “the people” and **we wish you Godspeed on this incredible journey.**

**For those of you who may have additional interest in the workings and mission of The Virginia Assembly,** please be with me for a few more paragraphs. Our goal is to facilitate your return to the land and soil and encourage you to regain (or continue) mastery of the trajectory of your Life, employ Self-Governance and ultimately find greater ease and joy in living. We are working closely with the Fifty (50) State Assemblies and The Federation of States to educate and inform others and to build and populate the missing aspects of the American Governance Structure to include the Lawful Courts for the people on Virginia.

After completing your initial paperwork, and even before doing so, **you may attend a General Assembly meeting on alternate Tuesdays at 7:00 p.m. to observe the proceedings of The Virginia Assembly.** Please inform us of your interest in attending and we will forward the link. Please see the attached “*Procedures for Order in Assembly*” or visit our website for meeting protocols and information.

**There is generally time for Q&A immediately following our General Assembly meetings for visitors and newly declared state nationals.**

We would be honored and delighted to have you attend a meeting and perhaps you may feel inclined to share your unique perspective and expertise in support of our endeavors. You will find laughter and camaraderie (and at times heated debate) as we act in Unity as we learn and become the Self-Governing Body on Virginia.

**The Monday night webinars with Anna Maria Riezinger a.k.a. Anna Von Reitz (AVR) are always highly educational** and will keep you informed of how the Federation of States continues to act on our behalf and how the States’ Assemblies have been called to action. Click the “Choose Month and Year” tab for archived webinars or scroll down to access the link for the weekly webinar.

We acknowledge that the massive task of educating ourselves can feel daunting in the beginning. We recommend, at your own pace and leisure, to spend some time with the documents for the 928 and others and consider what it is that you are autographing when you choose to record them. Let the natural process of being guided to what may best serve your Life flow freely and pay attention to what is before you. Be assured that what is in line with your path and your desire and intent for Love and Freedom will come to pass if, like we do, you keep putting one foot in front of the other. **Know that what it is you are standing for and putting your energy toward is for Good, and then do it wholeheartedly and without fear.**

**We appreciate your time and interest.** Please feel free to call or text any time, in addition to email. However, shoot me an introductory text first so that i will answer to an unknown number when you call.

**May Peace and Freedom Be!**
