

Sheriffs Questionnaire

The Virginia Assembly, an unincorporated assembly of “the people”, is committed to the fact that all men and women are created equal and have inherent rights and responsibilities. We believe that protecting and ensuring Freedom and Security is the duty of all people and Public Officials.

We have compiled these questions to assist us in our endeavor to determine where each Sheriff on Virginia is in their knowledge and understanding of the inherent rights of the people, jurisdiction, laws that apply to the people and laws for corporate entities. We would appreciate and welcome an honest and contemplative response to this questionnaire so that we may begin to collaborate and bring everyone to the same level of clarity regarding the subjects contained herein.

We encourage you to check the answer which most accurately reflects your belief about each question. If you cannot select an answer, please provide a written explanation. If needed, you may attach your written explanations to the back of this questionnaire. We would be honored to hear the beliefs, thoughts, and vision that you hold for yourself in the Office of Sheriff, and for the people of your county. Please answer the questions to the best of your ability. Answers can be found in the Historical Data and Overview document.

Part 3: Federal (as drawn from the CPSOA website with minor mods)

1. During the year 2020, the world went through a huge change and the USA was no exception. Various State Governors established some very strict rules including the orders for nearly all people to quarantine themselves, schools were ordered to shut down, churches were forced to close, and some ministers and churchgoers were actually arrested for having church service. Businesses and the economy were both shut down. Americans were ordered through executive orders to socially distance and to wear masks. Many Americans were arrested for failing to do so as many prisons were emptied of hardened career criminals. Which of the following statements best describes your views regarding Federal, State and local reactions to the Covid-19 virus? (choose all that apply)
- a) As long as there exists a nationwide emergency, all governments should do all within their power to keep people safe, including shutdowns, lockdowns, forced masks, and the suspension of liberty and the Constitution(s), as long as it is done for the good of society as a whole
 - b) In times of crisis it becomes necessary for leaders to assume power that they would not normally have. Under such circumstances, it is acceptable to take-away freedoms in order to secure safety and promote good health. Safety and community health are more important than civil rights
 - c) The response to the Coronavirus by government officials was wrong and unlawful. There have always been huge problems and plagues that kill hundreds of thousands of people. These plagues have killed millions, but the response from government has never been to shut anything down
 - d) No government is authorized to infringe on the people's rights
 - e) Many Sheriffs across America have taken very strong and courageous stands stating that they would not enforce or go along with any of the Covid-19 mandates or restrictions
 - f) Mandates are not laws and therefore should be not enforced

Comments: _____

2. Should the Federal Government come into your county to serve warrants and make arrests without informing you first of their intentions? (select any two)
- a) I would prefer that they notify the Sheriff's Office before doing so, but they don't have to
 - b) The Federal Government law enforcement power is greater than that of a County Sheriff. They don't need to notify me
 - c) They should absolutely notify our office before doing anything in my county/parish (Doing so is safer for the Federal of ficers and safer for the people, as well)
 - d) I believe there should be a policy established by all Sheriffs to require a "notify first" policy among all Federal and State of State agencies

Sheriffs Questionnaire

3. In your opinion, what is the proper role of government and why was government established?

4. If an agency of the Federal Government were violating the rights of a man or woman in your county, what would you do? (choose one)

- a) Tell the man or woman to hire a good lawyer
- b) Contact the agency head and ask that the abusing agent be disciplined
- c) Do everything in your power to stop it lawfully
- d) Handle the matter just like any other complaint

Other _____

4A: Would you take the time to meet with this man/woman and investigate his/her claims?
(your thoughts)

4B: If determined a violation of rights did occur, do you possess the power to arrest those you find who did harass this man/woman, including agents from this federal agency?

- a) Yes
- b) No

Why:

Sheriffs Questionnaire

5. If a Federal, State or Local Corporate Government and/or the United Nations were to implement a policy of door to door gun confiscation in your jurisdiction, what would you do? (choose one)
- a) Help them confiscate the guns
 - b) I don't worry about such a scenario as this would never happen in America
 - c) As Sheriff, I have no authority to stop the Federal Government or UN from doing anything. Those are higher governments and as sheriff I am not to call their actions into question
 - d) Interpose myself on behalf of the people to protect their right to keep and bear arms at all costs

Thoughts_____

6. Do you believe that the IRS conducting random audits on innocent people is a proper and constitutional procedure? (choose one)
- a) Yes. How else could they catch tax cheats?
 - b) It does not matter what I think
 - c) The IRS tactics are something for the courts to determine. The IRS is out of control, but there's nothing we can do about it
 - d) No. No other law enforcement agency in this country is allowed to conduct random audits to reduce crime or detect crime. As much as the IRS might like to think they deserve an exception to the Fourth and Fifth Amendments, no such exemption exists, and they should follow the rule of law just like everyone else

Thoughts_____

7. Your state has passed a red flag law (Risk Protection Order). As Sheriff, you receive an order to confiscate the guns belonging to one of your people, based on an allegation or information given by a third party. What would you do? (choose one)
- a) Order my commanders to hold a briefing with deputies and SWAT personnel to comply with the order ASAP. This man/woman could be a danger to the people
 - b) I would pass the order execution off to a different agency
 - c) Due process rights are determined by a judge; it is not my place. I would immediately send a team to remove all weapons from this offender's residence
 - d) I swore an oath to obey the law. I support the second amendment, but as much as I would hate to do this, the guns must be taken
 - e) I would refuse to enforce the red flag law and would protect the people's rights, employing any means or resources at my disposal

Thoughts_____

Sheriffs Questionnaire

8. Thomas Jefferson warned us that Washington D.C. would at times become “venal and oppressive.” If this were to happen today; who would the people in your county/parish be able to turn to for peace, safety, and protection? (choose one)

- a) The President and Congress
- b) The Governor and State Legislature
- c) The Courts and Judges
- d) The Sheriff and other local Public Officials

Other _____

9. Over the last decade, Federal and State bureaucracies have been raiding farmers and destroying their dairy products and businesses for merely distributing natural products like raw milk, cheese, or natural lip balm. As Sheriff, if this were to occur in your county, what would you do about it? (choose one)

- a) There is nothing I can do. It's not my job to protect the people from the regulations of other agencies
- b) Safety regulations exist to protect us all from potential harm. The farmers in my county/parish are not exempted in any way and must comply just like everybody else. I will assist in such raids if asked to do so
- c) I oversee a large department and am very busy. As much as I would like to help, we have much larger priorities at the moment. After all, there are plenty of farmers that are by the book and are not being raided
- d) The farmers have the right to run their businesses as they see fit. As long as they have not hurt anyone then I will stand with all farmers and will indeed protect their lands and businesses, from all threats

Other _____

10. According to the principles of our Republican form of governance; who is responsible for keeping the Federal Government in check? (choose one)

- a) Only the Federal Government is allowed to monitor itself and provide the necessary checks and balances on its own authority
- b) The President and the U.S. Supreme Court are charged with keeping Federal regulations from going too far
- c) Government regulations have gone too far, but the people have means available to appeal for relief when such regulations become abusive. Therefore, each man/woman is his/her own check and balance on overreaching government
- d) James Madison said the people can safely rely on the disposition of local legislators to erect barriers against the encroachments of the Federal Government. Therefore, it is the duty of all nation-states to keep the Federal Government in check. The Sheriff is absolutely an integral part of maintaining the balance of power between the nation-states and Federal Government

Other _____

Sheriffs Questionnaire

11. In 1994, seven Sheriffs from across the USA filed a lawsuit against the Federal Government to stop the forced commandeering of their offices in order to comply with the Brady bill. Two of these Sheriffs ended up at the U S Supreme Court (Mack/Printz vs. US) and won a landmark decision based on States' Rights. If you had been Sheriff at that time, what would you have done? (choose one)

- a) It is not the Sheriffs place to file such suits. It is our job to handle matters within our jurisdiction. National politics is for national politicians
- b) I was a Sheriff back then and I wish I had joined with these Sheriffs to help keep the Federal Government off our backs
- c) I was not a Sheriff then, but I would have proudly joined these courageous Sheriffs in standing to protect the autonomy of all Sheriffs nationwide
- d) If Congress passes a law that requires the help of Sheriffs, then that is exactly what we should do

Other _____

12. Last and most importantly, Article VI in each of the three (3) Constitutions requires each public official to swear an oath to support the Constitution. What is it that you do to keep this oath? (choose one)

- a) Oaths are ceremonial, and are done for the sake of tradition. In modern law enforcement, the law, case law, and high pressure situations truly govern our actions as police officers and sheriffs. I keep informed of all case-law and any Supreme Court decisions that specifically deal with law enforcement and I develop training and policies accordingly
- b) I stay very close to the County Attorney and follow his legal advice explicitly
- c) I keep my oath by doing those things that are statutorily required for sheriffs of my state to do. I enforce the laws as required with fairness and honesty
- d) I have read the Constitutions and have studied what the Framers of America intended. I have studied the Declaration of Independence and I know what the purpose of all government is. I will only enforce laws that coincide with the Constitution. I take my oath seriously and I will not violate it for anyone
