

WHY Anna von Reitz?

Greetings again from The Michigan Assembly (TMA) unincorporated!

I hope your journey into the self-education list I gave you has been fruitful so far. It is certainly a lot to take in, but be diligent and give yourself time. Your mind will wrap around it. Just shut out the noise of the world around you, turn off the TV if you haven't already, tune out the naysayers and other offers looking to make a buck off of you while appearing to be giving you the right msgs (only with certain key things missing), and concentrate on The American States Assemblies (TASA) or The Federation of States.

The subject and purpose of this email is to answer the question: Why Anna von Reitz? What makes her so special in the face of all the other authors and pundits, lawyers and professors, governments and politicians, etc? Why is she the way out of The Fraud and not somebody else of MY OWN choosing? Does it really matter? Answer: Yes... yes it does. Keep reading...

I will try to keep this short and point you to further research leads, but let me start by giving you the "tells" on how to know if you're being played by what amounts to controlled opposition. First, let's define controlled opposition: An entity or person that appears to talk like you, believe like you, say what you long to hear, but then slowly misguide you to the wrong things while maintaining an appearance of being on task to the right solutions. (This is why nothing ever gets done in their system and why entire swaths of people in political circles cannot achieve anything, even when it seems they have the support to do so.) See, their job is to capture you, mislead you, and make you ineffective, all while playing your emotions, including leading you to be insensed or offended if anyone speaks out against the controlled opposer leading the way. (Instead, be effective, not offended. After all, who was it that said "by their deeds, you will know them."?)

So, what are the tells in this case:

1. Hate Anna.
2. You don't have to change your political/legal status to change the government.

Those are key misdirections and lies, especially that last one... a real whopper!

As you will see, Anna von Reitz is the American Fiduciary, who has, through her Living Law Firm, positioned herself legally and lawfully in the international jurisdiction with the international courts as said fiduciary with a lien on ALL American assets. How and why, you ask? Well, you will see in your research that she caught wind of the international banksters fraudulently making claims to the international courts that they were claiming all assets on the land in America (since the land jurisdiction is international) due to being abandoned, that is, they claimed there were no Americans left inhabiting the land jurisdiction... at least not on paper. (They trafficked everyone off to other jurisdictions at birth for generations, and slicky-doo, right on time, as the old codgers die off, the bankers are right there saying American land is abandoned!) Anna called "Poppycock", though I wouldn't blame her if she'd used another compound word found down on the farm. So, she filed a blocking lien against all American assets as a living woman on the Land and Soil along with her family, proving that America was NOT abandoned.

In your research, you will also be able to answer the question: Why James Clinton Belcher as the American sovereign and hereditary keeper of the American seals, and why he has the authority as such to call the American States Assemblies into session, which they haven't been since 1860. Here are two references:

1. <https://states.americanstatenationals.org/educational-information-2/#decrees>
2. The American Story - An historical presentation given by Bobby Graves on Oregon https://youtu.be/yYEVau6Ve_s <----- Very interesting storyteller. Pay special attention to the parts about the Belcher (or Bel-Char) family history and role.

We are reconstructing the real government, since the "Reconstruction" following the Civil War was NOT a reconstruction, but a construction of the sea jurisdiction/admiralty/corporate commerce law brought on land and set up

with government service corporations by the military under emergency powers and the Act of 1871... but that is another area of study you will get into. Suffice to say for now that through distractions and false flags, intriuge and bankruptcies, central banking and taxation, and planned booms and busts, piece by piece they slowly put their system together until they instituted the birth certificate fraud on paper in 1933 as part of FDR's final bankruptcy of our country, which was cured and settled in 2020 (hence all the planned unrest and moving against the people, the priority creditors in an attempt to steal it all back). See, contrary to popular belief as pushed in history classes and labor unions across the county since WWII, FDR was one of the most evil men in history, using birth certificates as bonds (bond is root for bondage) pledging the people themselves as collateral against the public debt to the World Bank and Internaional Monetary Fund where they use your corporate trade name and trade your bonds and derivatives to make money all your life, then "cash in your chips" when you die... because you or your family didn't know to claim those gifted assets they funded, treating you as "dead and lost at sea".

I'll leave it there. Lots to learn. Have fun!

Respectfully,

Paul Douglas Peterson
Coordinator
The Michigan Assembly
