## **We See. We Do Not Consent!**

The men and women of The Virginia Assembly observe much harm and malfeasance occurring on Virginia. The following observations were prompted in response to Governor Youngkin's *State of the Commonwealth 2024* speech.

We continue to see the people on Virginia misaddressed and abused in criminal Admiralty/Maritime and Municipal court systems and forced to pay taxes, levies, penalties, and fines under crimes of fraud, personage, and peonage. We see the continuance of "pandemic" protocols, murder and kidnapping in hospitals with blatant lies spewing from corporate "authority". We see our people dying and crippled physically, mentally, and emotionally and children having heart attacks. We see the living people, still believing lies and programming, walking outside and driving in enclosed conveyances in masks and a state of perpetual fear after years of continued deception. We see that testing of food, rainwater, pharmaceuticals, and the blood of the people shows purposeful contamination and poisoning (for example, refer to <https://www.ewg.org/tapwater/> for water quality and chemical toxicity testing results).

**We Do Not Consent.**

We see Virginia's natural beauty moving toward fully weaponized SMART/C40 Cognitive Cities. We see "cell towers" both blatantly obvious and "disguised" on our farmlands, mountain tops, and outside our homes, schools, and businesses all while knowing that it enables a Kill Box Grid System aimed in the direction of the peaceful and innocent. We see LED/optical weapon systems disguised as streetlights virtually killing nearby trees and vegetation, destroying natural bio-rhythms, and eliminating any opportunity for a natural, dark and starry nighttime experience. We endure the blinding (literally) LED headlights on our automobiles and trucks combining with LED streetlight weaponry on poles, placed illogically and ridiculously close together for any sort of "energy savings", making nighttime travel unpleasant and dangerous. We see an overall push for AI integrated, Bio-Digital Convergence and Emergent Technologies which includes the hijacking of our bio-field, free thought, emotions and physical vessel. They now vie for our very consciousness with their Metaverse and Augmented Realities. **We Do Not Consent!**

We see DARPA/DOD protocols, WHO, NIH, WEF, UN, NASA, and other NGOs with their lies and propaganda being presented as truth via the CIA media machine, and we see the rampant censorship and blatant persecution, prosecution, and murder of those who have the courage and integrity to speak what is true. When we walk outside, we see, profuse and offensive stratospheric aerosol injections (chemtrails) in our skies with clear, unnatural wave patterns reminding us of the frequency weapons being continuously deployed in our air jurisdiction all the while knowing we are forced to breathe this industrial pollution and radioactive, metallic, meta-materials, nanomaterials and other toxins (see attachment – Our Once Beautiful Skies). **We Do Not Consent!**

We see more casinos and talk of new sports teams on Virginia bringing the essence of satanism,

debauchery and mindless entertainment to our State to continue the distraction from all related harm and trespass that is under way. The job market on Virginia is heavily laden with opportunities in bio-engineering and “Emergent” Technologies, which emerged decades ago, and is near mastery level now. This secret “medical” system is implemented by false governments and NGOs to complete our enslavement. We are aware of what Telehealth and Bio-Digital Convergence and Cognitive Cities are, in totality, with the Wide Body Area Network (WBAN), synthetic biology, optogenetics, self-assembling nanotechnology, biosensor technology, etc. implemented under secret military directives.  
(<https://www.nano.gov/>). **We Do Not Consent!**

In 1995, the biofield of mankind was harnessed as an internet cloud storage and routing system for no benevolent intent. As living souls, we do not consent to the Energy Harvesting of over forty-seven (47) percent of our natural, mitochondrial, and piezoelectric energy production to run information and data through our bone and tissue. We do not consent to being “nodes on a network” on the WBAN or having our brain signatures scanned by unmanned, AI directed drones. We do not allow access to our inner world or the workings of our minds, hearts or consciousness.

In the present, there are men, women and Artificial Intelligence (AI) Database systems with access to our bio-signatures who are given directives from criminals of “authority” to target peaceful “dissidents” and the “unworthy” based on their unique energetic signature (DNA), brain pattern and sound harmonic, to then be sought out by AI automated drone warfare. Many men and women have been programmed and/or augmented and believe they are serving their country by killing the peace-loving people. AI has been fully implemented in decision making and critical and moral thought has left the equation. This is disconcerting and appalling at best. These people are knowingly or unwittingly perpetuating an ancient eugenics agenda now presenting as Silent Warfare. Our adversaries have, quite literally, breached our homes, our bodies, our trust, and every aspect of our lives. Our own men, women, sons and daughters are being used as cheap mercenaries and to murder, maim, and sterilize their own families and brethren. They knowingly or unknowingly trespass against and harm their own people under “direct orders” originating from dark, secret places. The excuse of “I am just doing my job” or “just following orders” for a paycheck is inexcusable and unacceptable.
