

To help curb transmission of the novel coronavirus (COVID-19), Reclamation District #2029 (“District”) has limited public access to the main office located at 2575 Grand Canal Blvd., Stockton, California 95207. The safety and sharing of information with the District’s landowners and interested members of the public remain a priority and we have several alternate means for continued access and business with the District. The District joins with the State Water Resources Control Board and the nine California Regional Water Quality Control Boards (the Water Boards) which are continuing their efforts to protect public health, safety, and the environment consistent with all federal, state, and local public health directives and guidelines related to COVID-19. The District intends to timely comply with Water Board orders, regulations, permits, contractual obligations, primacy delegations, and funding conditions considered to be an essential function during the COVID-19 response.

The District concurs that the protection of levee system and waterways is an **essential service** and therefore the District will remain open to carry out necessary business functions.

On March 12, 2020 Gov. Newsom partially suspended the Brown Act due to COVID-19. In addition, the Federal Government has issued Cares Act and HHS Orders restricting group gatherings. The foregoing enactments and current laws governing group gatherings (“Orders”) remain in place. Therefore, to remain transparent and meet the intent of the Orders and open governance, the District notes the locations listed below are sites that Trustees *may* teleconference from for the special meeting set for 8:30 am on April 29, 2021. Please contact Secretary Coon for available locations.
