

ADMISSIONS INFORMATION

Motse Motheo Preschool and Daycare is a private, co-educational preschool set up with the objective of promoting schools where educating the mind and building character go hand in hand. Motse Motheo has three pillars of education.

An all-round education	we have an uncompromising commitment to educational excellence for our children in all areas, academic, cultural, and physical.
Growth in character (botho)	our children follow a program of character development aimed at assisting them to develop strong values.
A partnership with parents	we consider a working partnership with the family of each child to be an asset.

Our Vision

Our vision is to be the leading family-preschool of choice in Botswana, offering an all-round education in knowledge and character in partnership with parents.

Program summary

Motse Motheo is an English medium school. We welcome children of all nationalities, faiths and creeds. We also welcome children with special needs. The school is open to children aged 18 months to 6 years. The first 3 years of life is very important in child development. It is a period of rapid cognitive, language, social, emotional and motor development.

Our day care program is focused on achieving these developmental milestones. Our curriculum also includes literacy, numeracy, and learning about ourselves and the world around us. It is enhanced by arts and crafts, music and movement and outdoor play, swimming (through a partnership with an external swim school) in addition to our unique character education program. We have a shared reading program. Motse Motheo sends home a story book most evenings of the week for parents to read together with their children. We find that this enhances grasp of the English language.

We pride ourselves in having well equipped classrooms, qualified teachers and a small teacher to child ratio. Children can also enjoy our beautiful and well equipped playground.
