About Our Goat's Milk Lotions

Pure goodness because we care about your skin!

All our lotions are carefully crafted in small batches, using only the purest ingredients. Whole goat's milk, natural spring water, organic cold pressed oils, organic ivory African shea butter, certified pure therapeutic essential oils, and natural preservatives are used in the creation of all our lotions. We did the research so you can rest assured that your skin is getting the best.

Why Goat's Milk?

We use 100% natural whole goat's milk that is free of soy, gluten, artificial colors, flavors, antibiotic, preservatives, or growth hormones. Goat's milk provides anti-inflammatory properties and natural vitamins (vitamin A, B6, B12, C, D, E) that are helpful in restoring and rejuvenating the skin's natural glow.

Natural Preservatives

All lotions must be kept in a cool, dry location and used within 3 months of its creation date (unless refrigerated) because of the natural ingredients.

We Care About the Environment

We offer \$1.00 off your next purchase when an AT Pure lotion bottle is returned, undamaged. If you are unable to return it to us, please recycle at your local recycling facility.

Bottles and Packaging

We use BPA FREE pumps and UV filtering amber glass to protect you and the life of the oils used in our products.

Finally, a lotion for those that care about ingredients and the environment.

Face-Beautiful and Healthy

Nefer – Light Floral Scent

Nefer is a face and all over body moisturizer that will rejuvenate your skin to keep its youthful glow. This lotion is especially good for the face since it combines two essential oils, geranium and helichrysum, that are known for promoting the appearance of clear skin. The light floral scent is perfect for a pick me up.
