DIY or Installed Greenhouses

OUR STEEL TUNNELS

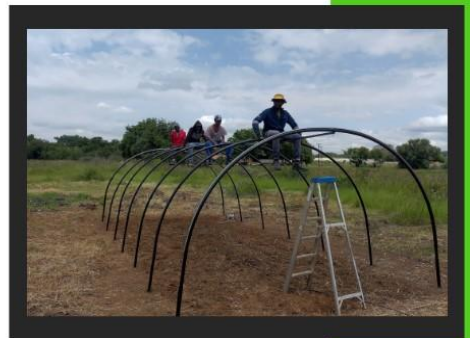

- Our Steel Frames are rolled and not Bent to give stronger Support
- Our Steel Frames are Coated with anti Corrosive Paint
- We add Liquid Rubber Paint over our frames to increase the Longevity of the Steel Frames
- We use a Larger Diameter Pipe Than some of our Competitors
- Ideal for Heavy trellising of plants

OUR HDPE TUNNELS

- Our HDPE Frames are
- NOT built using standard HDPE Water Pipes
- But a Specialized
- HDPE UV Resistant Extruded Oval Shaped Plastic Pipe
- Ideal for High Humid and Wet Conditions

THE KALLIERGO DIFFERENCE

- We Space our Arches Closer Together to give maximum resistance and durability 1.5m Apart.
- The 200-micron Plastic we use is a double layer polyethylene, Multi solar Plastic, is not only UV treated, but it is also antibacterial, infra-red thermal treated and light-diffusing, and offers durability by being extra supple and workable.
- We Cover our Tunnels with a 40% Agricultural Shade net Over our Multi Solar Plastic, offers crop protection, temperature control and also Helps to Protect against Environmental Hazards, Hail, Heavy Rain etc.
- Industrial Zips are used in our tunnels and allows for the tunnel to be opened and Closed Easily
- Different Widths available:
- 4.2m Wide x 2.4m High & 5.0m Wide x 2.6m High
