PUPPY HEALTH GUARANTEE:

Our Puppy Health Guarantee is that every puppy will be in good health at the time of sale.*

We begin worming the puppies at 2 weeks of age and continue every two weeks until the puppies go home. At 7 - 8 weeks of age the puppies visit the veterinarian where they receive an examination and their first immunization. Once the puppy completes its health exam, the puppy can go to their new home at 8 weeks of age. We will send the puppy home with a puppy packet containing their health records and suggestions about care. We will complete the puppy's American Kennel Club (AKC) limited and microchip registration to AKC on your behalf and the registration certificate will be mailed directly to you.

We do everything within our control to ensure that you are delivered a healthy and socialized puppy that is free of disease. For the protection of the buyer and seller, the buyer must agree to have puppy examined by a licensed

Veterinarian of their choice within 48 business hours of puppy possession to verify the puppy's state of health. This shall be at buyer's expense. This initial examination is mandatory to start the Replacement Warranty. **Failure to do so will void this contract and its guarantee.** If within those 48 hours the puppy is found to have a life-threatening defect, the buyer may return the puppy **(Within 5 days of the purchase date and at buyer's expense)** for a replacement puppy **(with equal or lesser value; with same coat, color or gender)** as soon as one becomes available.

**Note: In the event that the veterinarian discovers a health concern with a puppy, the buyer will be notified in advance of picking up puppy and will be given the option to accept or decline taking ownership of the puppy after discussing available options with the breeder.*
