I am a **Technical manager** and **Lighting Designer** with over 15 years of experience in Technical management for live entertainment events, and over 20 years in Multimedia Design/Graphic Design. I have served as Technical consultant for GEA/SELA in the 2019 Riyadh Season. I have also managed the Lighting Department on Sheikh Jaber Al Ahmad Cultural Center, during their handover and startup periods. My responsibilities extend over the lighting, the video, and the stage management teams. My duties included production communication and sourcing, System specification and testing, supervision and logistics of the installation. I maintain a wide contact list of production and technical sources, both internationally and in the Gulf area.
