### 2026—CELEBRATING 31 YEARS AS A MODEL A FORD CLUB OF AMERICA

The Golden Triangle A's have been serving the Southeast Texas Model A community since January 10, 1995. With regular meetings, tours and activities, it is our goal to unite all Model A Ford owners and help in restoring, maintaining and preserving these automobiles. We strongly encourage all our members to join the Model A Ford Club of America.

### THE PREZ SEZ.....

Hello Fellow GTA members and welcome to 2026!

Our last event in 2025 ended on a very high note. The Christmas party was well-attended with great food, wonderful holiday stories, and the white elephant gift exchange. It was a fun time for everyone and set the tone for our 2026 GTA calendar. Several of our members were unable to attend

the Christmas party due to health issues, and they were missed. Please keep them in your prayers for speedy recoveries.

It looks like y'all get to keep reading my rambling President's messages for another year. The club officers for 2026 will be the same group you had in 2025. Start thinking now about the 2027 officers because new and fresh ideas are always welcome and needed in any volunteer organization.

Dennis Weyant has reserved space for our January monthly meeting on the 13th at Carmela's Mexican Restaurant in Pt. Arthur; it is located at 8550 Memorial Blvd (near Central Mall) and easy to get to for everyone, and they have great food. Everyone come to this meeting with some ideas for our calendar for Dine & Drive events, tech sessions, weekend tours, or just a friendly weekday lunch at your favorite hangout. Be sure to be at Carmella's on the 13th. I will have a schedule for a new monthly event we are going to start for 2026: "Last Thursday with the Prez" We will meet at 11 a.m. for lunch on the last Thursday of each month at various locations.

Pam and I would like to hold a Dine & Drive event for the club on Saturday, January 24th. We will meet at the Spindletop Museum on Lamar University property at 10 a.m. They have plenty of space if you want to trailer your A there. We will take a short drive through the Southpark area and Tyrrell Park. Then we can head downtown Beaumont and drive around some historical buildings and landmarks ending up on Crockett Street. Lunch will be at 12 noon at the Riverside Grille Restaurant which is located at 290 Cockett St. They have wonderful food and a great atmosphere to enjoy after a morning of driving our A's. This Dine & Drive event is a great opportunity for those who like to dress in Model A era clothing and have a good time. We are looking forward to this event, and hopefully, it will kick start a great year for our club.

Now go to your closet and start working on what you are wearing on January 24th!

Happy Motoring, Bob

## GOLDEN TRIANGLE A's 2026 CALENDAR

If anyone would like to sign up for a Dine & Drive, please contact Bob & Pam Johnson at 409-781-3078.

**Saturday Dine and Drives:** Dining may be breakfast or lunch. Details and time allowed for the events are set by host. It is best if the host gives members information for the Dine and Drive at a meeting prior to the event so it can be added to the club calendar. Eating at favorite restaurants, antiquing, trade days, festivals, car shows, visiting museums or gardens, and attending other local community events are all ideas for Dine & Drives.

This is a good example of a 1928/29 dress (left) remade to the 1930/31 style (right). The 1928/29 dress has a drop waist and shorter length. The 1930/31 dress no longer has a drop waist. The skirt is now stitched to the bottom of the blouse making the dress longer. The belt is moved to the natural waistline.

## ACORNS AND TEACUPS AND DRUMS AS WELL.....

There were several changes to the head lamps, cowl and rear lamps on the Model A over the span of four years. This information can be found in Area 15—Exterior Plating. Nickel plating was used on head lamps, and cowl and rear lamps in 1928 and 1929 on all passenger vehicles, with chrome plating used from 10/29 to 12/29 for head lamps and cowl lights. Stainless steel replaced nickel/chrome plating for all passenger vehicles in 1930 and 1931. Commercial vehicles for all years had head

lamp cases, cowl and rear lamps were dipped in gloss black enamel while the doors (rims) were left unpainted. In 1930 and 1931 commercial lights were made from magnetic steel.

1928-1929 head lamps were acorn shaped and had no markings. In February, a new design was used with "Ford" script and "TWOLITE HEADLAMP" stamped on the top of each shell. In October 1929, some head lamps were chrome plated. With the introduction of the 1930 models, the head lamp assemblies were changed to a hemispheric shape made of stainless steel. All the components were cadmium plated with the exception of the latch which was nickel plated or stainless steel. Conduits were bright nickel plated brass from BOP to October 1929 when they were chrome plated to match the change in the head lamp cases. 1930-1931 conduits were magnetic stainless steel.

Cowl lamps were introduced in 1929 and had an acorn shape as well and were bright nickel plated as well. Plating in late 1929 was changed to match the change made with the head lamps. They were standard equipment on Cabriolets, Town Sedans and Town Cars. The shape was changed in 1930-1931 models to reflect the shape of the head lamp and were stainless steel with chrome plated arms. They were standard equipment on deluxe models and offered as accessories on other models.
