

QUIZLET “STUDY SESSIONS” FOR MR. HENDRY’S PHYSICAL EDUCATION CLASS

Quizlet is a mobile and web-based study application that allows students to study information via learning tools and games.

All students in Mr. Hendry’s physical education class will need to have a Quizlet account and they must join my class on Quizlet. We will do this as a group at the beginning of the semester but if they need to join later – see instructions at the bottom of this page. Students will use Quizlet each week to study physical education and health information that we cover in class. They can also use Quizlet later in the semester to study for our Final Exam as well.

To access the different activities, you will log into Quizlet.com or you can use the app they have available for free in iTunes and Google Play. I will send out a link (using remind) for each Quizlet assigned and reminders will be posted on my white board and classroom schedule.

Quizlet is designed to help the students gain a better understanding of our classroom materials and to improve their vocabulary. Most of the activities will take about 5-10 minutes to complete and can be done on a smartphone or computer. The only activity that is required for them to complete for my class is the “Learn” Activity which is simply a completion grade. Additional activities can be completed for extra credit.

I usually grade these on the first day of the week, usually Monday unless there is no school. That would make the deadline for Quizlet any time before the first day of a new week. Each Quizlet is worth 10 points (plus any additional activities completed added in for bonus points).

When creating a Quizlet account please use your first name and last name as part of your username. You will need to request to join my class and once you are accepted, you will have access to our Quizlets. My classes are as follows:

- Hendry PE – Period 1
- Hendry PE – Period 2
- Hendry PE – Period 3
- Hendry PE – Period 4
- Hendry PE – Period 6
- Hendry PE – Period 7
- Hendry PE – Period 8
