

Ethan is staring at the Ohtani autographed card that he pulled in the memory. In the same location where he pulled the card.

DANIEL

So you're going to sell that one to the shop right?

ETHAN

You wish.
(beat)
I'm showing my collection to another Ohtani Collector. .

DANIEL

(Sarcastic)
Sure. A friendly show and tell.

ETHAN

I didn't say that.

DANIEL

You don't have to lie. Now is a good time. It's all about timing.
(Beat)
Did I ever tell you what happened to me? About the Luka Card?

ETHAN

No.

DANIEL

This guy hit's me up on Instagram asking how much for the Luka Doncic Prizm Halo rookie PSA 10. So I tell him \$950 right. He comes in to the shop and low balls me with a 650 counter. Says he's the biggest Luka fan in the world and the card will cure his dog's cancer. I basically tell him \$800 is my bottom dollar or go kick rocks. This guy comes up to \$700 and gives me another sob story. After another 30 minutes of checking eBay he finally agrees \$800 is a deal. He buys the card and leaves. A few days later the Mavericks trade Luka to the Lakers.

ETHAN

No way.

DANIEL

Comps on on ebay are going up to \$1300. I was so mad. I just took the L for the day and moved on. Sometimes that's just how things work out in the hobby.

ETHAN

The timing man. Crazy, steal for him.

DANIEL

That's why I'm saying!

(beat)

You have the best timing with Ohtani. He's got 2 rings; he's doing things baseball has never seen. He's made baseball fun again.
