

Blending cinematic textures and synth-driven emotion, Nashville-based producer Grace Sun crafts music that play like stories told through sound. Inspired by film scores and artists like Imogen Heap and Lorde, she builds immersive soundscapes that connect feeling and atmosphere. She has collaborated with independent artists across pop, folk, indie, and alternative genres, helping bring their ideas to life with her polished, expressive touch. A classically trained pianist for over 15 years, Grace also creates custom music arrangements that showcase her melodic and emotional style. Right now, she is producing emotionally driven music for artists, teaching piano, and building a catalog for film, TV, and media.
