The purpose of PAIA is to:

- foster a culture of transparency and accountability in public and private bodies by giving effect to the right of access to information, and to
- actively promote a society in which the people of South Africa have effective access to information to enable them to fully exercise and protect all of their rights.

The organisation recognises everyone's right to access to information and is committed to provide access to the organisation's records where the proper procedural requirements as set out by PAIA and POPI have been met.
