Subject: Morel lifters winning big!

John,

Just want to say thanks again for your help on my racing program. Picked up the big win at the World Super Pro Challenge last Sat for \$50K! The UFRS "test" lifters that you originally supplied to me (TEST MB 030213) were rebuilt back in 2016 and since then have about 200 runs on them and the lash is dead on. A close buddy just started running the Black Mamba's on his 565ci dragster and has done a few random inspections...said they could be put back in the box and returned as new!
