SAFETY SOLUTIONS

# ENDLESS SAFETY? DON'T KNOW WHERE TO START?

- (8) Employees shall be prohibited from working on overhead conductors unless other adequate material is necessary for removal of such materials.
- (9) Where swinging loads are being hoisted onto or near scaffolds such that the loads might contact the scaffold, tag lines or equivalent measures to control the loads shall be used.
- (10) Suspension ropes supporting adjustable suspension scaffolds shall be of a diameter large enough to provide sufficient surface area for the functioning of brake and hold mechanisms.
- (11) Suspension ropes shall be shielded from heat-producing processes. When acids or other corrosive substances are used on a scaffold, the ropes shall be shielded, treated to protect against the corrosive substances, or shall be of a material that will not be damaged by the substance being used.
- (12) Work on or from scaffolds is prohibited during storms or high winds unless a competent person has determined that it is safe for employees to be on the scaffold and those employees are protected by a personal fall arrest system or wind screens.
- (13) Debris shall not be allowed to accumulate on platforms.
