“ALL GOOD THINGS COME IN THREES” A trio of winches to suit any application

We hope you are well and managing through the Covid-19 pandemic. First and foremost, our hearts go out to anyone who's been impacted by the virus. We are all facing a truly unprecedented situation which has affected our families, our businesses, our communities and our way of life.

During the last year APL have been keeping busy. We are delighted to present our new creation the ATOM 400 winch. Based on the already favoured ATOM 250 winch but boasting a remarkable 400kg of pulling power. If that's not enough, we can upgrade it to a colossal 500kg should you need us to.

We have also been industrious, adding a variety of improvements to our range of existing winches, making them increasingly user-friendly and effortless to install. We have reduced the footprint of our original ATOM and the safe working load has increased from 200 to 250kg.

Other features our static ATOM winches include are:

- Quick-release mechanism enabling the removal and re-fitment of the winch without the need for any tools.
- Longer webbing can now be provided - up to 10 metre in length.
- Pre-wired, detachable plug for swift, reliable, fool-proof installation. Handbrake interlocking instructions are also provided.
- Wireless remote controls - eliminating any need for problematic under-floor wiring.
- Universal fitting bracket supplied as standard.
- Next-day delivery available (stock level permitting)

Our **PORTAWINCH** has been met with enormous excitement within the industry. It is the only portable winch available on the WAV market today. It negates the need for any wiring or installation into the vehicle and solves the age-old problem of limited floor space since the winch can be removed and stored away when not in use.

We are a family-run business here at Accessible Products. We recognise that although a good product is of significant importance, a good service is also just as essential. We pride ourselves on our friendly customer service, being a small team allows us to communicate effectively and have a better understanding of every single one of our customers' needs. Being Northern folk, we also enjoy a good old chin wag with our customers! With this in mind, we would love to hear from you so please get in touch if you have anything at all you wish to discuss with us.

Currently we are running introductory pricing discounts and 30 day sale or return trials across our entire range.

We really hope to hear from you soon.
