Diffusers & Nebulisers

**AMRITA COURT**  
AUSTRALIA

# AMRITA COURT'S MISSION

Our mission is to bring about an aromatic, healthy and desirable lifestyle to modern consumers. To provide straight-forward essential oil blends, diffusers and aromatherapy skincare to all.

- **Natural & eco-friendly**
- **Vegan & no cruelty**
- **Premium quality & highly effective results**
- **Straight-forward and easy to use**
- **Unique and innovative design**
- **Enhance the beauty of our customers and their homes**

Not only do we deliver beautiful essential oils, with a focus on blends, we also recognise the need to address how they are to be presented, dispersed and utilised in the most attractive, competent and innovative way keeping in mind our company ethos. This is when our environmentally friendly eco diffusers were designed and added to our range.

## AMRITA COURT ECO NEBULISER AND DIFFUSER RANGE

Amrita Court are proud to introduce our unique range of eco-friendly essential oil diffusers and nebulisers.

Designed in-house, with various ultra-modern styles to choose from, there is always a diffuser to suit everybody and every space.

All of our eco luxe diffusers are individually crafted using minimal plastics. Beautifully sculptured designs, composed of sturdy hand blown glass pieces, paired with natural wooden bases.

Mostly with convenient 'one touch' controls, they disperse a subtle therapeutic vapour together with gentle LED lighting to create a captivating ambience.

Clever air pump technology is utilised in our diffusers to deliver a clean and cool aromatic mist. No water or heat is required.

**When artistic aesthetics meet the elements of nature!**

# ECO-FRIENDLY NEBULISER BENEFITS:

- **No plastics, no heat and no water to be used.**
- **Cool air pumped in at high speed, atomising essential oil into mist, keeping the original aroma intact.**
- **Natural essential oil to retain its therapeutic properties as there is no heat or water.**
- **The nebulising process produces large number of negative ions benefiting the health of your family.**
- **No consumption of oxygen nor any gas waste like carbon dioxide.**
- **No toxin being leached out from plastics by prolonged use of essential oils.**
- **Maximum safety**

# MATERIALS

Quality wood materials from sustainable practices around world, including European Beech, American Maple, Asian Rubberwood and New Zealand Pines.

Each of the glassware is designed and hand blown by skilled trade masters.

# AURORA CRYSTAL LIGHT DIFFUSER

The AURORA - ambient crystal diffuser with light. When crystals meet essential oils, a harmonising combination of healing energy is created and released into its immediate surroundings.

AURORA is a spirited and versatile diffuser, designed with our company ethos in mind. It springs to life once the light is turned on, emitting a pretty pink or white glow. A diffuser that delivers divine vibrations into any room it is placed. It's natural wooden base and glass reservoir is filled with a blissful union of rose or clear quartz stones which are then sprinkled with your choice of essential oils.

ROSE QUARTZ is known for its amazing soothing properties, boosts feelings of peace and tranquility. A wonderful stone to heal and protect the heart, balance emotions, relieve stress and tension. Known as the 'love stone' rose quartz allows love and calmness to flow within.

CLEAR QUARTZ is known as the 'master healer'. A high vibrational stone that has the ability to declutter, revitalise and balance the mind, body and spirit. Amidst other benefits, it assists in warding off negativity, aids in concentration, and improves memory. It amplifies energies of other crystals close by and acts as a cleanser for the soul.

**A great choice of diffuser for the bedroom, living area, during yoga or meditation practices and additionally, works particularly well as a night light.**

Real quality crystal  
(500g real quartz)

Neat, clean and  
eco-friendly with minimal  
plastics utilised.

New Age Healing therapy which  
complements and enhances  
any decor.

# AURORA CRYSTAL LIGHT DIFFUSER

AMETHYST - The spiritual meaning of Amethyst is groundedness, tranquility, and calm. For centuries, Amethyst has been thought to be useful in the prevention of drunkenness and overindulgence. Called the "all-healer", it is the most effective crystals for healing people, plants, and animals. It also counteracts negative earth energies beneath buildings or anywhere that feels hostile.

GREEN CALCITE - aligns with the Heart and Upper Heart Chakras. It balances on every level, and supports the immune system, strengthening the body's ability to fight infection and to heal. It has a gentle mood-lifting effect. This crystal is a very powerful heart stone that is here to help calm and rejuvenate our most vital organ. It's the perfect stone to help relieve unneeded daily stress and calm our pent up energies that may have been brewing all day.

## PRODUCT DETAILS:

- Materials: Nordic Beech, Rose Quartz OR Clear Quartz (500g), Small LED Light;
- Dimension: 120mm (h) X 100mm (D);
- LED Light is a bright white colour and not dimmable;
- Caution: Do not look directly into light without the top crystal glass.

---

## DIRECTION OF USE:

- Place the glass dome on the electric wood base, gently add the raw crystals provided.
- Add 10-30 drops of pure essential oils to the crystals.
- Diffuse into a room environment of up to 30 square meters.
- Replenish with favourite essential oils when required.

---

## CLEANING:

- You may continue to add other blends or essential oils to the unit without cleaning.
- Alternatively, empty crystals into warm soapy water, wash clean, rinse and replace once dried. Occasionally wash glassware with luke warm soapy water and rinse for a thorough clean.
- Please note some heavier oils may cause discolouration to crystals ie: coloured oils (some citrus, patchouli etc)  
May be wiped with Ethyl alcohol or ethanol to remove excess.

# NOVA NEBULISER | AIR PUMP ESSENTIAL OIL DIFFUSER | PORTABLE

The NOVA - the handmade portable and rechargeable essential oil diffuser. Perfect for the home, car, office or perhaps an area that does not contain a power outlet. Utilising clever air pump technology the Nova nebulising unit delivers a cool and pure atmospheric essential oil vapour.

Once your chosen essential oils are added, air is pumped into and swirls from within the glassware reservoir, atomising the essential oils within and sending an absolute aromatic mist into your environment lasting a few hours (for any space up to 30 square meters)

No water is required and no heat is used, both of which may diminish the delicate, aromatic and therapeutic properties of essential oils.

A very elegant yet eco-friendly design, in keeping with our company ethos. Featuring unique and individual hand blown glass piece combined with natural blonde wood and finished with beautiful rose gold metallic banding.

## Features:

-  **USB rechargeable.**
-  **Convenient easy to use "Touch" setting design.**
-  **Neat, clean and eco friendly with minimal plastics utilised.**
-  **Stylish and contemporary design to complement any decor.**

## PRODUCT DETAILS:

- Materials: Soft Pine Wood, Glass and Metal;
- Dimension: 70mm (D) X 170mm (H);
- Weight: 220g;
- Voltage: 5V;
- Volume: 35ml

## DIRECTION OF USE:

- Insert the glassware into the wooden base and attach to power supply.
- Add 10-30 drops of your favourite essential oils into the diffusing piece, taking care not to overfill beyond the air nozzle in the base of reservoir.
- Touch button control
  - Touch once: atomises for 2 mins then off for 1 min. Continues alternating for 2 hours before switching off completely.
  - Touch twice: atomises for 30 seconds then off for 90 seconds. Continues alternating for 5 hours before switching off completely.
  - Touch three times: turns the unit off.
  - Touching the switch continuously for 3 seconds will increase or decrease light brightness.

## CLEANING

- Essential oils and blends may be added to the unit without having to clean every time.
- Alternatively, if you prefer to not have residual essential oils that were previously diffused, clean and wipe glass reservoir with ethanol or ethyl alcohol between usage of different essential oils.
- Occasionally wash glassware in luke warm soapy water and rinse for a thorough clean.

# LUNA NEBULISER | AIR PUMP ESSENTIAL OIL DIFFUSER | LIGHT + NEBULISER

The LUNA - This handmade essential oil diffuser light is aromatherapy at its finest. The very alluring Luna diffuser is sure to create an ambiance no matter where it is situated, a captivating addition to any space. Luna offers a soft, almost magical aura when illuminated, whilst diffusing and dispersing your favourite essential oils.

Utilising sophisticated air pump technology the Luna nebulising unit delivers a cool and pure atmospheric essential oil vapour.

Once your chosen essential oils are added, air is pumped into and swirls from within the amber glassware reservoir, atomising the essential oils within and sending an absolute aromatic mist into your environment lasting a few hours. Recommended for any space up to 30 square meters.

No water is required and no heat is used, both of which may diminish the delicate, aromatic and therapeutic properties of essential oils.

A very chic, minimalistic and effective essential oil delivery system. An eco-friendly design, featuring individually hand blown glass combined with natural wood.

## Feature:

Led light: dimmable from soft white to bright white (see direction of use).

Convenient easy to use "Touch" control setting design.

Neat, clean and eco friendly with minimal plastics utilised.

Stylish and contemporary design to complement any decor

## PRODUCT DETAILS:

- Inclusive: Soft pine wood diffuser, glass top with noise reducer and adaptor;
- Dimensions: 34cm X 19cm X 8 cm;
- Power Supply: input 100-240 V 50/60 Hz; output DC5V - 1A;
- Noise: dBA < 35 dB.

## DIRECTION OF USE:

- Add 10-30 drops of your favourite essential oils into the diffusing piece, taking care not to overfill beyond the air nozzle in the base of glass reservoir.
- Diffusion Cycle: 5 minutes on then 3 minutes off continuing for 3 hours then off.
- Two touch button control
- **Power Touch Button**
  - Press once to turn on with high mist output, light on
  - Press twice normal mist output with light on
  - Press again to turn off
- **Light Touch Button**
  - Press on and Light on, light brightness defaults at 40%
  - Press twice, light off
  - Press Light button for 2 seconds, beeper sound once and brightness turns up gradually; with second beep it reaches 100% brightness
  - Press Light button for 2 seconds again, beeper sound once and brightness turns down gradually; with second beep it reaches minimum brightness

**You may continue to add other blends or essential oils to the unit without cleaning. Alternatively, gently clean or wipe amber glass reservoir with ethanol or ethyl alcohol between use of different essential oils. Occasionally wash glassware with luke warm soapy water and rinse for a thorough clean particularly after using oils with colour (like citrus oils).**

# CELESTE NEBULISER | AIR PUMP ESSENTIAL OIL DIFFUSER | TALL

**CELESTE - Essential Oil Nebulising Diffuser with Multi Colour Light - With our continual focus being on outstanding quality, aesthetics & eco conscious design, we always aim to provide you with something beautifully unique.**

CELESTE offers you just that. As with all of our eco friendly diffusers here at Amrita Court, it is composed of natural, real wood and individually hand blown glassware.

Also features an adjustable multi-coloured light function.

Our nebuliser diffusers are most effective for delivering the anti-fungal, antibacterial, and antiviral properties of essential oils into a very fine atmospheric vapour which is both cool and pure.

Utilising clever air pump technology, the unit forces air throughout the chamber where essential oils are placed, which in turn converts the oils to a mist before dispersing into the environment.

No water is required and no heat is used, both of which may diminish the delicate, aromatic and therapeutic properties of essential oils.

Recommended for any space up to 30 square metres

## Features:

**Conveniently easy to use "Touch" and rotary switch control setting design.**

**Neat, clean and 'green'**

**Eco friendly with minimal plastics utilised.**

**Stylish and contemporary design that compliments any decor.**

## PRODUCT DETAILS:

- Materials: soft pine wood diffuser, hand blown glassware, metal and electrics;
- Dimension: 90mm (D) X 220mm (H);
- Input: 110/220V, 50/60Hz; Output: DC 5V

## DIRECTION OF USE:

- Add 10-30 drops of your favourite essential oils into the diffusing piece, taking care not to overfill beyond the air nozzle in the base of glass reservoir.
- Diffusion Cycle: 5 minutes on then 3 minutes off continuing for 3 hours then off.
- Turn Switch and Touch button control
- Turn Switch
  - Turn the knob clockwise to switch on (click sound)
  - Turn the knob to adjust the volume of air
  - When it is on, the light will be on and rotate through 7 colours
- **Light Touch Button**
  - Touch the button to stay on a particular colour
  - Touch continuously to change colour
  - Touch to rotate colour change and colour stay

**You may continue to add other blends or essential oils to the unit without cleaning. Alternatively, gently clean or wipe glass reservoir with ethanol or ethyl alcohol between use of different essential oils. Occasionally wash glassware with luke warm soapy water and rinse for a thorough clean particularly after using oils heavier, coloured oils. ie: patchouli, vetiver, some citrus etc**

# OSCAR NEBULISER | AIR PUMP ESSENTIAL OIL DIFFUSER | ROUND

Oscar Nebuliser is different from the ultrasonic diffuser most are used to. Consistent with our motto of eco-friendly, we make sure that minimal plastics is used and this nebuliser is made of high quality glass and natural wood, making it an elegant piece for home decor.

It requires no water but only straight pure essential oil goes into it. Air pumped from the device swirls inside of the machine atomising the essential oil liquid and ejecting out aromatic mist.

This diffuser is classy, neat, clean and "green"--good for you as well as for nature.

## Features:

**LED light: 7 colour rotation when it is on.**

**Convenient easy to use screw control design.**

**Neat, clean and eco-friendly with minimal plastics utilised.**

**Stylish and contemporary design to complement any decor.**

## PRODUCT DETAILS:

- Materials: Nordic beech and hand blown glass;
- Dimension: 115mm (D) X 190mm (H);
- Voltage: 5V;
- Volume: 50ml

## DIRECTION OF USE:

- Insert the glassware into the wooden base and attach to power supply.
- Add 5-30 drops of your favourite essential oils into the diffusing piece, taking care not to overfill beyond the air nozzle in the base of reservoir.

---

## CLEANING

- Essential oils and blends may be added to the unit without having to clean every time.
- Alternatively, if you prefer to not have residual essential oils that were previously diffused, clean and wipe glass reservoir with ethanol or ethyl alcohol between usage of different essential oils.
- Occasionally wash glassware in luke warm soapy water and rinse for a thorough clean.

## OPERATING CYCLE

- Turn on to have 3 minutes on and 1.5 minutes off, 5 hours duration then automatically turned off. The rotary switch adjusts the volume of pumped air.

NEBULIZING DIFFUSER

Once your chosen essential oils are added, air is pumped into and swirls from within the glassware reservoir, atomising the essential oils within and sending an absolute aromatic mist into your environment lasting a few hours (for any space up to 50 square meters)

No water is required and no heat is used, both of which may diminish the delicate, aromatic and therapeutic properties of essential oils.

A very chic, minimalistic and effective essential oil delivery system. An eco friendly design, featuring individually hand blown glass combined with Thailand Hevea Wood.

## Features:

**Modern and compact design.**

**Conveniently easy to use Touch Button design.**

**Neat, clean and eco friendly with minimal plastics utilised.**

**Stylish and contemporary design to complement any decor.**

## PRODUCT DETAILS:

- Materials: Thailand Hevea Wood and hand blown glass;
- Dimension: 107mm X 57mm X 112mm (H);
- Voltage: 5V;
- Volume: 10ml
- 7 Colour LED Light

## DIRECTION OF USE:

- Insert the glassware into the wooden base and attach to power supply.
- Add 5-30 drops of your favourite essential oils into the diffusing piece, taking care not to overfill beyond the air nozzle in the base of reservoir.

## OPERATING CYCLE

- Touch once to have 2 minutes on and 1 minute off, 2 hours duration then automatically turned off.
- Touch twice to have 30 seconds on and 90 seconds off, 5 hours duration then automatically turned off.
- Touch third time to turn off.
- Press for 3 seconds to switch light on.

## CLEANING

- Essential oils and blends may be added to the unit without having to clean every time.
- Alternatively, if you prefer to not have residual essential oils that were previously diffused, clean and wipe glass reservoir with ethanol or ethyl alcohol between usage of different essential oils.
- Occasionally wash glassware in luke warm soapy water and rinse for a thorough clean.
