ABOUT US

Encore Beauty was founded in 2005 by mother/daughter business partners, Maureen Bartlett and Shannon Earls and it continues to be proudly, an award-winning, family, Australian owned clean beauty distribution company. Initially created to launch the professional makeup collection, SLA Paris, created by Serge Louis Alvarez, in Australia and New Zealand, Encore Beauty now represents a vast portfolio of exceptional natural & cruelty free cosmetic lines.

Encore Beauty is passionate about premium, professional, natural and organic products and is deeply concerned about the environment and animal welfare. We ensure that every brand that we represent is ethical, natural and cruelty free, whilst being professional, high-quality and effective and results driven.

Encore Beauty is dedicated to providing our clients with the highest quality products, the latest makeup techniques from the master, Serge Louis Alvarez, in our own SLA makeup academy, advanced skincare and retail training and outstanding service to support our exceptional products.

Encore Beauty currently distributes to day spas, salons, retail outlets, online stores, department stores, pharmacies, makeup stores, makeup schools, television networks and makeup artists across Australia and New Zealand.

OUR BRANDS

Our philosophy is to source the very best natural, organic and clean cosmetic products that are free from parabens , free from chemicals and preservatives of concern and they must be cruelty free.

Encore Beauty ensures that every product range that we select to exclusively import and distribute is ethical, responsibly manufactured, environmentally friendly and unique.

Every one of our brands will add a new dimension to your day spa, hair or beauty salon, pharmacy, barber shop, department store, gift store, e-commerce business, perfumery or freelance makeup artist business and we support this with the addition of industry training.

Encore Beauty proudly represents the following brands:

A Clean & Professional Concept

SLA is the culmination of 30 years of design and development by French creator and visionary, Serge Louis Alvarez. Monsieur Alvarez has been hailed by both professionals and consumers as "The Professor" of professional makeup. He is constantly innovating and advancing the world of makeup artistry from his eco friendly laboratory and factory in Valence, in the beautiful south of France.

The professional and natural SLA collection is distributed to more than 320 beauty schools in France. More than 100,000 professionals have been trained with SLA Paris products!

SLA Paris is a Clean Pro Beauty Make-up range where the products are designed together in symbiosis.

Each product is adapted according to the product previously applied on the skin.

12 basic make-up steps outline the brand's range to achieve professional-quality make-up.

The SLA Paris range incorporates natural active ingredients and ensures that the care of your skin is paramount. SLA Paris constantly strives to design more "natural", "cleaner", "greener", and more "responsible" formulations from their laboratory. This mindset creates a new vision of cosmetics... Clean Pro Beauty Makeup!

SLA
SERGE LOUIS ALVAREZ
PARIS

-  **DESIGNED BY A PRO ARTIST** - SLA Paris is designed and manufactured by the "Professor" of makeup artistry Serge Louis Alvarez. Serge Louis Alvarez has had an incredible career in the Professional Makeup industry, including being the Director of the Paris Opera and Director of the Paris Theatre, and working with famous Fashion Designers such as Paco Rabanne. He designed his first products in 1984 and opened his public company SLA Creation in 1992.
-  **MADE IN FRANCE** - SLA Paris is formulated and manufactured in their own laboratory and facility in Valence in the South of France.
-  **CRUELTY FREE** - SLA Paris products are NOT tested on animals.
-  **NATURAL FORMULATIONS** - SLA Paris products are paraben free, PEG free and some are comprised with organic ingredients.
-  **ENVIRONMENTALLY FRIENDLY** - SLA Paris is releasing refillable packaging where possible across the range (eye shadows and powders initially) which is both better for the environment with less plastic in landfill but also better economically for the consumer.
-  **MICRONISATION AWARD** - In 2013 SLA Paris was awarded with the Prix H.Pierantoni de L'Innovation (Innovation Award) for the exclusive Micronisation System that they created. SLA Paris powders are now 10 times finer than any other powder manufactured by conventional methods. In 2014 SLA Paris was awarded with the Prix H.Pierantoni de L'Innovation (Innovation Award) again for developing a QR Code system per product (with application and training information) that was found inside every packaged product.
-  **HIGH PIGMENTATION** - Our pigment level is between 50-60%

Inspired by Nature, Powered by Moor

Moor Spa's comprehensive face, body, spa and wellness line is inspired directly by the healing powers of nature. Their products contain the exclusive Austrian Moor, a nutrient-rich plant/flower/herbal complex that enhances skin's health and appearance.

Safe & Effective Skin & Body Care Solutions

Moor Spa delivers safe and effective solutions to meet your skin and body care needs by combining the revitalising Moor essence with a wide range of plant-derived active cosmeceuticals, unadulterated herbal extracts, vegetable oils, and pure essential oils.

The products are 100% naturally derived, and are certified safe and pure by CertClean® and cruelty-free by Leaping Bunny®.

Natural Source Guarantee

Unlike many products which claim to be natural, Moor Spa is completely free of synthetic preservatives, parabens, sulfates, artificial colours and fragrances, and petroleum-derived chemicals such as PEG, propylene glycol, or mineral oil.

The source of every ingredient that they use is listed in a 100% Natural Source Guarantee for each product.

MOOR SPA®

Our Signature Ingredient - Austrian Moor

Created by nature over 10,000 years ago, this nutrient-rich complex is derived from many herbs, plants, and flowers. It is revered for its therapeutic properties by both medical clinics and spas around the world.

Every Moor Spa product contains the unique Moor essence, consisting of a wide array of organic substances and minerals such as humic acid, fulvic acid, antioxidants, proteins, and mineral salts that enhance the skin's overall health.

Environmentally Conscious

At Moor Spa, they are passionate about product safety and purity as well as minimising their ecological footprint. As a result they were one of the first companies in our industry to convert to biodegradable packaging.

In 2020 Moor Spa partnered with UK-based Symphony Environmental to incorporate their d2w material into the packaging. This causes the plastic to fully biodegrade within two years after a product has been discarded, rather than up to 500 years for conventional plastic.

They have also partnered with One Tree Planted as part of our commitment to support organisations aligned with our vision. With each sale of some of our products we have committed to planting one tree in North America.

The Collection

The Moor Spa Collection aims to provide you with every element that you need in your 5-star Day Spa or Beauty Salon. There are retail and professional sized products, spa equipment + more. The Moor Spa range includes a comprehensive Skin Care collection, Moor Spa Man, Moor Spa Pro products, Body Care (including body treatments, massage, hair, sun care, mani pedi), Aromabalance, Bio Shorts and Wellness products including the famous Moor Herbal Bath.

LUÉ BY JEAN SEO

LUÉ
by Jean Seo

Jean Seo is a Korean American with a Masters in Library Science who is devoted to researching the best ingredients and formulas.

Jean Seo opened the first eco chic boutique in 2007 and quickly built a cult following. She launched anti-aging line Evulé Skincare in 2015, and in 2016 launched LUÉ by Jean Seo, affordable and organic skincare basics.

In 2020 Evolve Skincare Inc. was awarded the prestigious Presidents "E" Award for Exports.

The target market for LUÉ by Jean Seo are primarily Gen Z, Millennials and Late Millennials. Their interests include using organic and Non-GMO ingredients, looking for emerging brands, clean beauty, wellness and complexion care. They look for authentic and transparent brands, and they are both savvy and price conscious.

LUÉ by Jean Seo is perfect for Combination/Oily/Acne skin types. It is also ideal for people with sensitive skin suffering from irritations, allergies or surgeries.

DESIGNED BY SKIN EXPERT - Jean Seo has a Masters in Library Science and is devoted to researching the best ingredients and formulas.

NATURAL ORGANIC FORMULATIONS - Our products are paraben free, PEG free, Phenoxyethanol free, made with organic and non GMO ingredients, with no added fragrance.

CRUELTY FREE - Our products are NOT tested on animals.

MADE IN USA - LUÉ's customer service and marketing skills were enhanced and perfected while working with boutiques, warehouse retailers, chain stores and subscription boxes. These experiences allowed them to master large scale production in their own lab in Phoenix, Arizona, where they make all of the products from inception to retail. Their production capability is 1,000 units per hour per machine.

SUSTAINABLE PACKAGING - Currently they use recyclable plastic bottles, tubes, and boxes. From 2021, they started using recycled bottles which is the most sustainable option available. Glass is not a realistic option, it is heavy, breaks easily, and takes longer to biodegrade. They have also started switching the tubes to biodegradable plastic tubes made from wheat straws. The appearance of bottles, tubes and boxes will stay the same. The boxes will also be biodegradable. LUÉ by Jean Seo are constantly looking for the most sustainable, yet realistic option for their packaging.

" I have followed my heart, never settled, and created the luxurious skincare line that you deserve. Remember, this may be the only life you live. Never compromise." JEAN SEO - CEO & FOUNDER

THE MUNIO

the MUNIO

To give people back the power of nature, the source from which we all originate but have lost in modern times. To generate warmth and light which emanates from candles with stories.

This was and still is the simple and honest mission with which Elina Cima created the Munio Candela studio and the first collection of candles in 2008.

In Latin, Munio Candela means "the most spiritually powerful candle". Every candle is carefully and lovingly made by hand using only 100% natural soy and rapeseed wax and fragrances.

Northern nature is captured in Munio Candela candles nurtured by Latvian master craftsmen.

Enjoy the naturally scented and organically sourced skincare products - soaps, body lotions, and body oils.

They're delicately crafted by women and intended to be enjoyed by everyone, including our planet. They're handcrafted in our studio and wrapped in environmentally friendly packaging. Indulge and let our products bring nature back to your home!

[DOWNLOAD THE MUNIO BRAND PRESENTATION](#)

ARTISAN PRODUCTS - They are a design candle and skincare studio that takes pride in its close-knit team and creating small batch, quality products. We still do everything by hand. We go out in nature (the Latvian Countryside) and pick the moss, flowers and herbs for our products. We place each decorative flower in the candle by hand. We mix, we pour, we de-mold and package all products by hand and we do it with great sense of pride.

PROFESSIONAL PERFUMERY TRAINING - Elina has always had an interest in understanding aromas and the science behind perfumery. It was a natural fit to develop this skill further and enroll in the Grasse Institute of Perfumery in France. Going in-depth to understand how to build scents gave her the inspiration needed to create the Munio skincare line.

SUSTAINABLE PACKAGING - Munio candles are wrapped in a cotton cloth and then placed in a biodegradable cardboard box. Same goes for the skincare - we use glass bottles and place each in a natural tie-bag before shipping. Sustainable packaging that creates less waste and little to no carbon footprint is one of our top priorities. If the solution doesn't exist, we'll create it. Munio joined a research group to work on packaging alternatives that are less waste, environmentally sustainable and simply better for the planet. We're making progress with packaging that will eliminate harmful plastic.

A PROUD FAMILY BUSINESS - Following the rapid growth in global markets, both sisters Laura and Liene joined Elina and the Studio which now is a steadily growing family business.

NATURAL ORGANIC FORMULATIONS - At least 95% of our ingredients are Organic Cosmos Certified. (The COSMOS-standard signature is a consumer guarantee for organic and natural cosmetics that you can trust). We use natural essential oils and other fragrances to create our signature collections.

CRUELTY FREE - Our products are cruelty free and NOT tested on animals.

SUSTAINABLE BEAUTY FOR COMMITTED PEOPLE

From the French Caribbean, Kadalys is the first eco-conscious brand upcycling banana agri-waste into patented organic actives, to rejuvenate the skin whilst giving back to the local community and nature.

Launched in 2012, Kadalys is the reflection of founder Shirley Billot's very specific vision to create a caring, eco-conscious luxury beauty company founded on three pillars:

circular economy, green chemistry and inclusive capitalism, based on the banana tree plant and her elevated commitment to her French West Indian heritage and the wider community.

An early adopter of the now much talked about circular economy model, Kadalys helps preserve our natural environment by upcycling agri-waste and developing new patented cosmetic active ingredients that concentrate the banana tree's precious molecules.

KADALYS

OUR COMMITMENTS

Tackling Food Waste - UPCYCLING AGRO-WASTE from the banana industry (using all parts of the plant : fruit, flower, shank). 22 million tonnes of bananas are thrown away globally, 40,000 tonnes are just from Martinique, France (approx 20% of the annual production).

Reducing food waste is ranked 3rd in the top 10 solutions to REVERSE CLIMATE CHANGE.

Green Science for Safe Beauty - Kadalys is a line of conscious skincare formulated using green chemistry and natural ingredients while remaining harmless to the planet. It has developed 3 unique patented potent bio-active ingredients. Kadalys has been at the forefront of green chemistry, with over 10 years of research and development behind the brand. All products are:

- Natural & organic formulas (ECOCERT, COSMEBIO)
- Vegan & Cruelty-Free (ONE VOICE and Leaping Bunny)
- Formulated without silicone, GMOs, Mineral oil, Phenoxyethanol, Paraben, Phthalates, Sulphates

Sharing to Create Social Impact - INCLUSIVE CAPITALISM can reduce intergenerational inequalities. 100% of Martinique's Banana producers are shareholders, 100% of FWI banana producers are partners. Our goal is to extend the benefits of our business activity to support farmers, their families, and the indirect employment of the banana sector, the first private employer of the FWI.

Educating Women - The return on investing in women is incalculable! It is ranked 6th among the top 10 solutions to reverse climate change! Kadalys is involved in educating young talented FWI (French West Indies) women to become doctors in Biochemistry.

OUR PRODUCTS

A complete organic skincare line comprised of innovative organic formulas with 98.5% to 100% ingredients from naturals boosted with active ingredients to rejuvenate skin and maintain a healthy, radiant glow.
