

AVELLANAS PUBLIC PARK UPDATES & TIMELINE

Dear Community,
We are excited to share with you the progress of the public park project. The municipality has donated trees, and renewing the soil and planting those trees will be the first important phase of the reforestation of the public beach area. The architects drafted & donated a beautiful plan that shows the vision of our future park.

SOLSTICES

THE VISION BEHIND THE AVELLANAS PUBLIC PARK

The concept is the sun and the moon. We play with elements that give us the specific shadows during the summer and winter solstice. The moon is reflected in the placement of an amphitheater that we are making with natural elements such as wooden trunks.

The idea is to encompass areas for children's games, a Photobooth and a space for performances. We are also moving the lifeguard tower to that sector.

WE NEED YOUR COOPERATION!

PLEASE PARK ONLY IN THE PUBLIC PARKING & SET AN EXAMPLE TO OTHERS

- > The parking lot is our only resource to fund the park and other reforestation and community projects
- > Ease congestion and traffic
- > Prevent theft and damage
- > Allow emergency vehicle access
