

# Beginners and Juniors

Today we will be making the prison cell where Manasseh repents and turns to the one true God. You will need to colour your prison cell in, cut it out and stick the tabs together to make the 3D cell. Watch the video at the end of the Sunday school lesson to see one being made!

- 1) Colour in your prison cell
- 2) You'll need to cut out the prison windows (you may need an adult to help)
- 3) Fold along all the lines and cut out around the outside of the shape
- 4) Put glue on all the tabs
- 5) Stick the tabs onto the roof triangle to the right of it and they will all connect
