

## Re-Align Framework & Simplified Insolvency Programme Assistance for Businesses Impacted by COVID-19

In view of the unprecedented impact of COVID-19, the Ministry of Law (MinLaw) has provided a range of measures over the past few months to assist businesses, including temporary relief from legal action for the inability to perform certain contracts, and the Rental Relief Framework.

To further support small and micro businesses that continue to be significantly impacted by COVID-19, MinLaw will introduce two new measures – the Re-Align Framework and Simplified Insolvency Programme in January 2021.

MinLaw invites associations and your members to join us at a Zoom Webinar where we will share more about how eligible businesses may benefit from these measures.
