Stepped-Up Enforcement Checks on Safe Management Measures (SMMs) during the Festive Period

Dear Members,

With the upcoming Chinese New Year festivities, government agencies will be stepping up enforcement checks to ensure that F&B and nightlife operators, premises owners, and patrons comply with the Safe Management Measures (SMMs) in place. As families and friends come together to celebrate this joyous occasion over food & drink, nightlife operators and their patrons should continue to play their part and stay vigilant throughout this challenging time.

The stepped-up enforcement checks are necessary to mitigate the virus spread and continue to keep the community transmissions low in Singapore amidst the further re-opening of activities, such as the increase in group size from 5 to 8 persons for F&B and increase in capacity limits of certain premises (e.g., malls).

We strongly encourage both our nightlife operators and their patrons to continue working together to ensure that all SMM rules are adhered to; so that we can continue to celebrate safely and also do our part as we progressively open up our economy together. We trust that all operators of our nightlife sector will do their utmost to comply and ensure.

SNBA would also like to take this opportunity to wish all our members, a Happy Lunar New Year with Good Health and Prosperity for all in the coming year.

Thank You and Regards;
